

NATURAL GAS

Products

MEET THE DEMANDS
of customers and regulators

Tap into Border States Electric's understanding of natural gas distribution and transmission systems for the most comprehensive analysis of products, services and equipment available to the industry today.

The **RIGHT PRODUCTS** when you need them.

PRODUCTS PROVEN
to get the job done.

Border States Electric works with more than 200 natural gas vendors. We supply field-tested products proven to get the job done.

We stock what you need to save you time and money. That's less material for you to warehouse, and lower carrying costs.

Gas and Pipeline Expertise

Our knowledgeable applications engineers are here to help and work with your standards engineers to improve lead time, lower costs and allow for more readily available alternatives.

Our valve maintenance specialists provide technical knowledge, operation qualification and training in:

- » Valve maintenance classes on hydraulic gun maintenance, plug valves, ball valves, Department of Transportation (DOT) requirements, frozen valves, valve flushing and lubrication procedures.
- » Valve maintenance on below- and above-grade distribution plug valves, while the valve is still in service.
- » Operator qualification on valve maintenance and testing.
