SECURE ACCESS

and **IMPROVE ACCOUNTABILITY**

with vending solutions
from Border States

Our experience has shown us that you can't just place a vending machine in a facility and expect to reach your goals.

TYPICAL SYSTEM PAYBACK
is one year.

Our customized vending solutions help you reduce consumption, track use by employee and reduce or eliminate stock outs. Other features include:

- » Reduced waste and hoarding
- » Updated inventory levels in real time
- » Automated procurement and replenishment tools
- » Less walk-around time

Learn how our trained experts can customize a solution for you. Talk to your Border States Sales team today for more information about vending.

Fiber Optic SOLUTIONS

AFL UNMATCHED PORTFOLIO OF FIBER OPTIC CABLE

AFL's fiber optic cables span a variety of applications including overhead transmission/distribution lines with Optical Ground Wire (OPGW) and All-Dielectric Self-Supporting (ADSS), MicroCore® for above or below ground installations, and inside plant (ISP) and outside plant (OSP) cables that form the backbone of FTTH networks. For electric utilities, enterprise, and service providers, AFL provides innovative cable products that deliver exceptional solutions for our customers.

OPGW CABLE

- » Provides a path for short circuits to ground
- » Protects the circuits from lightning strike
- » Provides an optical pathway for communication on power transmission lines
- » Up to 96 fibers (CentraCore), up to 144 fibers (AlumaCore) and up to 432 fibers (HexaCore)
- » OPGW cable hardware available including dead ends, suspensions, splice enclosures and comealongs

AlumaCore, CentraCore, HexaCore OPGW

36F AlumaCore

ADSS CABLE

- » All-dielectric self-supporting cable with high and medium voltages for transmission line circuits
- » Span lengths from a few hundred feet to several thousand feet
- » Up to 144 fibers (Mini-Span® and Flex-Span® ADSS) and up to 432 fibers (Standard ADSS)
- » Superior advantages over traditional strand and lash fiber networks
- » ADSS cable hardware available including dead ends, tangent connectors, suspensions, splice enclosures and storage units

Mini-Span, Standard, Flex-Span ADSS

108F Standard ADSS

MICROCORE® CABLE

- » Small-diameter loose tube cables
- » Optimized for the rigors of Outside Plant (OSP) applications
- » Blown or jetted installation into microduct pathways
- » 12-432 fiber counts
- » 300 lb installation tensile load rating
- » OD compatible with 10 mm to 16 mm inside diameter microducts

OSP MicroCore in microduct

288F OSP MicroCore in 48F sub-units

PREMISE CABLE

- » Structured cabling and enterprise applications – Outside Plant (OSP), Inside Plant (ISP) and Indoor/Outdoor (I/O)
- » Available in dielectric and armored configurations with flame ratings
- » General purpose, riser, plenum
- » For network routings that include external pathways
- » Provides the Flame Safety requirements for transitions into campus buildings
- » Available in multiple constructions ranging from distribution style single-jacket cable to high fiber count designs

I/O Riser Tight Buffered

12F I/O Riser Tight Buffered

Aerial

HARDWARE

Deltec® Cable Support System

Designed to perform a minimum of 20 years outdoors.

- » Double-locking head with corrosion-resistant locking barbs in copper alloy
- » No sharp edges: operator friendly, cable friendly
- » Easy to install, low installation costs
- » Extremely robust ties with high tensile strength (1110N) after fastening
- » Strapping made of toughened, weatherable acetal
- » Temperature range: -65°C to 90°C (-85°F to 194°F)
- » UV-, moisture- and salt-resistant and halogen-free environments

Mfr. Model #	Description	BSE Part #
TYD-50R	Deltec Strapping on Reel, 0.5" W x 50' L	783150
TYD-LH	Deltec Double-Locking Heads, Pkg. of 25	783149

U-Guard™ — Plastic

Designed to give non-conductive, high impact protection for utility power and communication cables installed vertically on poles.

- » Installs quickly and easily with EMC's U-Guard™ fasteners
- » Easily field cut to desired length
- » Ribbed surface
- » Belled end on 2" through 6" provides for overlap on adjacent sections
- » Excellent UV protection

Mfr. Model #	Description	BSE Part #
PE-1UG8	1" x 8" Flanged Riser	3294785
PE-1.25UG10	1-1/4" Plastic	3384451
PE-2UG10-BOX	2" x 10" Flanged Riser	1177009

15° Communication Standoff Bracket

- » Medium duty
- » Fiberglass units do not warp, split or shrink
- » All units are coated with a special ultraviolet-resistant polyurethane gray paint or silicone coating
- » Shipped ready to install

Mfr. Model #	Length	Fiberglass Diameter	Min Ultimate Vertical Load	Min Ultimate Longitudinal	Min Ultimate Transverse	Weight Ea	BSE Part #
1CSM12	12"	1-1/2"	2100	1300	1500	3.8 lbs.	800244
1CSM18	18"	1-1/2"	1500	1000	1500	4.6 lbs.	129910
1CSM24	24"	1-1/2"	1100	700	1500	5.4 lbs.	800245

Formed Wire Deadend for Guy Strand 1/4"

For deadend applications of support guy wires. FWDE will hold a minimum of 100% of the guy wire rated breaking strength.

- » For HSS, EHS, Common, Siemens-Martin, Utilities and Bell System Strand grades
- » Zinc plated (B-coat) EHS steel construction
- » 6650lb (29.6KN) maximum RBS

Mfr. Model #	Nominal Size	Maximum RBS	Nominal Length	Diameter Range	Color Code	Units per Box	Weight per Box	BSE Part #
FWDE1104	1/4"	6650 lbs.	25"	0.231-0.259"	Yellow	50	24 lbs.	1720219

Fiber Optic SOLUTIONS

Formed Wire Galvanized Steel Splice

FWLS series formed wire are designed for use on all types of galvanized guy wire (EHS, High Strength, Common, Siemens-Martin, Utilities, and Bell System Strand).

- » For repairing damaged or severed guy wire or messenger cable
- » FWLS will hold a minimum of 100% of the guy wire rated breaking strength (ultimate strength) when centered over the severed or point of damage
- » Consult factory for information on use if damaged area exceeds length of splice
- » Left hand lay standard

Mfr. Model #	Nominal Size	Max RBS	Nominal Length	Diameter Range	Number of Subsets	Color Code	Units Per Box	Box Weight	BSE Part #
FWLS2104	1/4" (3W & 7W)	6650 lbs.	35"	0.231-0.259	2	Yellow	50	34 lbs.	3400405

Guy Hooks

For attaching a guy wire to the pole. Galvanized to ASTM A-153.

- » Guy Hook, 1 bolt style (5004), keeps guy wire from creeping downward in wrapped guy applications. Hooks should be used under bolt heads for maximum shear strength
- » Cast ductile iron guy-hook attachment (aka Ram's Head or Goat Hook) for deadending guy and messenger wire (GH5). Minimum ultimate tensile strength is 12,400 lbs. and maximum strand size is 7/16" Includes 11/16" upper hole, 9/16" lower hole and backside cleats for wood pole installation. Manufactured to specification IEEE C135.90

Mfr. Model #	Bolt Hole Dia.	Weight Ea.	BSE Part #
5004	9/16"	.67 lbs.	614306
GH5	11/16"	1.3 lbs.	792503

Drive Hooks

- » Hooks used to attach wedge type service drops and deadend clamps to crossarms, poles or buildings

Mfr. Model #	Size	BSE Part #
C2050190	7/16" Dia, 4-3/4" L	100040
PSC2050605	5/16" Dia, 3-1/2" L	3497868

Lag Screws

- » Galvanized per ASTM A-153
- » Upset shoulder

Mfr. Model #	Thread Type	Head Shape	Diameter	Length	Point Type	BSE Part #
508753	Fetter	Square	1/2"	3"	Drive	130557
8722GP	Gimlet	Square	1/4"	2"	Regular	573402
DF1L3	Gimlet	Hex	1/4"	3"	Regular	146561

Square Head Machine Bolts

- » Square head machine bolts have 5/8" diameter and cone point
- » Includes one square nut
- » Rated tensile strength is 12,400 lbs.
- » Hot dip galvanized per ASTM A-153
- » Manufactured in compliance with ANSI C135.1
- » RUS listed, c - Bolt, machine

Mfr. Model #	Length	Min Thread Length	Weight Ea	BSE Part #
8808	8"	4"	0.78 lbs.	130471
8810	10"	4"	0.93 lbs.	130473
8812	12"	6"	1.08 lbs.	130474
8814	14"	6"	1.23 lbs.	130475
8816	16"	6"	1.40 lbs.	130476
8818	18"	6"	1.54 lbs.	130477
8820	20"	6"	1.71 lbs.	130478
8822	22"	6"	1.76 lbs.	100837

Eyenuets, Eyelets, and Nuts

- » Eyenuets are commonly used for deadending, back-guying and attaching pole head guys on the threaded ends of crossarm bolts. Drop-forged, hot-dip galvanized steel
- » Eyelets are used on ordinary machine bolts for straight-away guys. Rounded groove protects guy strand from sharp kinks and bends. Drop-forged galvanized steel. Construction for high-strength applications
- » Curved lock nut (3512) is made to give tight connections

Mfr. Model #	Thread Type	Head Shape	Diameter	Length	BSE Part #
6502	Eyenuet	5/8"	Yes	.675	130403
6510	Eyenuet	5/8"	Yes	.865	130405
6519	Eyelet	5/8"	No	1.25	130407
3512	Lock Nut	5/8"	Yes	.04	130351
55084P	Square Nut	5/8"	Yes	0.1	573322

3-Bolt Messenger Suspension Clamps

- » Used with 5/8" diameter through bolt to support cable at poles at corner or angled runs (7902L) or straight runs (7903)
- » Through bolt also serves as clamping member
- » Two carriage bolts included

Mfr. Model #	Type	For Strand Size	Length	Center Hole Dia	Weight Ea	BSE Part #
7902L	3-Bolt Angle	1/4" thru 7/16"	7"	11/16"	2.04 lbs.	574470
7903	3-Bolt Straight	1/4" thru 7/16"	5-3/4"	11/16"	1.78 lbs.	130451

Square Washers

- » Square flat washer with 11/16" diameter hole for 5/8" diameter bolt
- » Manufactured in compliance with NEMA PH-10
- » Galvanized per ASTM A-153 or ASTM B695
- » RUS listed

Mfr. Model #	Washer Size	Hole Diameter	Bolt Diameter	Weight Ea	BSE Part #
6812	2 x 2 x 1/8"	11/16"	5/8"	0.12 lbs.	130425
6813	2-1/4 x 2-1/4 x 3/16"	11/16"	5/8"	0.24 lbs.	130426

Straight Thimbleye® Bolt

- » Internal eye dimensions are 9/16" x 11/16"
- » Includes one square nut
- » Rated tensile strength is 12,400 lbs.
- » Hot dip galvanized per ASTM A-153. RUS listed, ao - Bolt, strand eye, straight (thimble eye).
- » Contoured eye keeps guy strand from kinking, bending or spreading
- » Drop-forged steel

Mfr. Model #	Size	Thread Length	Weight Ea	BSE Part #
5510	5/8 x 10"	4"	1.48 lb.	130386
5512	5/8 x 12"	6"	1.76 lb.	130387
5514	5/8 x 14"	6"	1.88 lb.	614470
5516	5/8 x 16"	6"	1.92 lb.	614472

Corner Attachment Bracket

- » Integral thimble eye pole attachment for dead ending strand and guy grips at angles of 35 to 60 degrees
- » Pole mounting surface is curved with integral spurs for stability during mounting and life of installation
- » Accomodates maximum 1/2" diameter strand/guy grips
- » Ductile iron per ASTM A536, galvanized per ASTM A153

Mfr. Model #	Coating	Carton Qty	BSE Part #
PSC2080479	Galvanized	20	3547030

Fiber Optic SOLUTIONS

Span Clamps

C Span Clamp

- » Provides drop wire clamp attachment at the mid-span
- » Accepts strand size range of 1/4" to 3/8"
- » Clamp plates are aluminum with 3/8" steel hardware
- » Threads are staked to prevent loss of nut during installation
- » Galvanized coating
- » Carton quantity: 100

D Lashing Clamp

- » Secures terminated lashing wire in aerial applications
- » Accepts strand size range of 1/4"-7/16"
- » Stud is staked to prevent loss of nut

E Span Clamp

- » Provides drop wire clamp attachment at the mid-span
- » Accepts strand size range of 1/4" to 7/16"
- » Clamp plates and 3/8" hardware are steel
- » Threads are staked to prevent loss of nut during installation
- » Meets BellCore standard CA08391
- » Galvanized coating
- » Carton quantity: 50

Q Span Clamp

- » Provides drop wire clamp attachment at the mid-span
- » Accepts strand size range of 1/4" to 7/16"
- » Clamp plates and 1/4" hardware are galvanized steel
- » Threads are staked to prevent loss of nut during installation

Multidrop Span Clamp

- » Used to attach multiple drop cables at one location using drop wire clamps or direct attachment
- » Bolt staked to prevent loss of nut during installation
- » Accepts 1/4" strand
- » Galvanized per ASTM A-153
- » PSC2080475 carton quantity: 100
- » PSC2080475 carton quantity: 50

Mfr. Model #	Description	BSE Part #
CCSC	C Span Clamp	3546968
CDLC	D Lashing Clamp	3547031
CESC	E Span Clamp	3546968
CQSC	Q Span Clamp	3546973
PSC2080475	Multidrop Span Clamp	3546971
PSC2080572	Multidrop Span Clamp with Ground Screw	3546972

Straps and Spacers

Spacer creates space between messenger strand and aerial cable.

- » Bell spacer is black UV-stabilized plastic
- » Stainless steel lashing strap is 3/4" wide and used to support cables or cable bundles on the messenger

Mfr. Model #	Type	Size	Material	Carton Qty	Weight Ea	BSE Part #
PSC2080421	Bell Spacer	1/2"	Plastic	4000	.011 lbs.	3400401
C10SSLC	Lashing Strap	10"	Stainless Steel	500	0.026 lbs.	3400402
C16SSLC	Lashing Strap	16"	Stainless Steel	500	0.04 lbs.	3303748

Automatic Guy Wire Deadend

3/16" EHS, Common, Siemens-Martin, Utilities and Bell System Strand.

- » Innovative yoke design allows for installation without the use of a gripping hook

Mfr. Model #	Guy Wire Size	Range	Carton Qty	BSE Part #
GDE5199	3/16" 7 Strand	0.145–0.215"	50	3547037

Automatic Aluminum Guy Wire Splice

Full tension auto splice, for 5/16" Alumoweld, HS, Common, Utilities, Siemens-Martin guy grades.

- » Individually bagged to seal out dirt before use
- » For splicing applications with overhead or support guy wires
- » Hold a minimum of 90% of the guy wire rated breaking strength

Mfr. Model #	Primary Strand Application	Range	Length	Diameter	BSE Part #
GLS5041	5/16" EHS, 7#10 (10M), 7#11 (8M) AW	0.270–0.315" (6.86–8.00)	8.6"	1.22"	2243653

Cable Suspension Clamp

Used with through bolts to serve as a clamping member.

- » Made from rolled, high quality steel, hot dip galvanized per ASTM A153 for maximum corrosion protection
- » SI-1740 and J1096 conform to Bellcore specification 8623

Mfr. Model #	Description	Carton Weight	BSE Part #
J1096	Cable Suspension Clamp	43 lbs.	580788
SI-1740	Cable Suspension Clamp	45 lbs.	1473246
SI-1755	Cable Suspension Clamp, Curved	53 lbs.	1473247

Strandwise Connector

Used for deadend applications with overhead or down guy wire.

- » Rated to hold a minimum of 90% of RBS of the strand used
- » Color indicator for easy identification
- » "Universal Grades" are recommended for use with Alumoweld, EHS, aluminized and galvanized steel strand

Mfr. Model #	Description	BSE Part #
5199	Strandwise Connector, 3/16" Universal Grade Strand, Red	133613

Guy Hook

Used for down and span guys.

- » Constructed of ductile iron, hot dip galvanized
- » Features smooth grooves to eliminate chafing of the strand
- » Accepts a wide range of strand diameters
- » 5/8" mounting hole

Mfr. Model #	Description	BSE Part #
SI-4425	Guy Hook, Bellcore Specification 7909	3535158

Drive Hooks

Used for securing drop wire attachments and service drops.

- » Rolled fether drive threads and pilot point for east starting
- » Constructed of hot dip galvanized

Mfr. Model #	Description	Dimensions	Other	BSE Part #
J3316P	Drive Hook, Bellcore Specification 7365	7/16" x 4-3/4"	—	149789
J3318	Drive Hook, Bellcore Specification 7365	7/16" x 4-3/4"	Strike Pad	580572
SI-3000	Drive Hook, Bellcore Specification 7365	5/16" x 3-1/2"	—	3486527

Lashing Hardware

Used for deadend applications with overhead or down guy wire.

- » Steel
- » Lashing Wire is used for easy and permanent termination of lashing wire to messenger strand
- » Lashing Strap is used to strap CATV & telephone cable to steel strand in aerial construction
- » Straps are .010" thickness x 3/4" wide
- » Strap edges are processed to be smooth and free of burrs
- » Polyethylene spacer is 1/2" wide

Mfr. Model #	Description	BSE Part #
SI-2175	D Cable Lashing Wire Clamp, Accepts 1/4" (6.6M) to 7/16" (16M) Messenger Strand	1473253
SI-7511-10	10" Lashing Strap	3012400
SI-7511-16	16" Lashing Strap	3535159
SI-7512-050	1/2" Lashing Strap Spacer	3012401

Lashing Wire

Used to support CATV and Telephone cable to messenger strand in aerial construction.

- » Made from high strength non-corrosive steel
- » Wire is fully annealed and wax coated for ease of use

Mfr. Model #	Description	BSE Part #
SI-9609	Lashing Wire	3535160

Fiber Optic SOLUTIONS

Span Clamps

- » E-Span clamp is used for mid-span drop wire take offs and holds cable away from obstacles in the line of aerial construction
- » Q-Clamps are designed for strand
- » Multi-span clamps are designed for 1/4" messenger strand and provide fast, easy mid-span take-offs for service drops
- » C-span clamps are made for 1/4" to 3/8" strand

Mfr. Model #	Description	Strand Size	Standard Pack Quantity	Carton Weight	Material	BSE Part #
SI-0024	E Span Clamp	1/4"-7/16"	100	40 lbs.	Hot-Dipped Galvanized Steel	3458741
SI-0513	Q Span Clamp	1/4"-7/16"	120	22 lbs.	Mechanically Plated Steel	3162136
SI-0514	O Span Clamp	1/4"-3/8"	200	22 lbs.	Mechanically Plated Steel with Aluminum Plate	3521319
SI-0515	Multi Span Clamp	1/4"	100	22 lbs.	Mechanically Plated Steel	3521321
SI-0515GC	Multi Span Clamp	1/4"	100	18 lbs.	Mechanically Plated Steel	3521322
SI-0515MB	Multi Span Clamp	1/4"	120	22 lbs.	Mechanically Plated Steel	3521323
SI-0952	C Span Clamp	1/4"-3/8"	200	48 lbs.	Mechanically Plated Steel with Aluminum Plate	3521320

Corner Attachment

- » Constructed of ductile iron, hot dip galvanized
- » Corner attachment clamps are used for 35 & 60 degrees
- » The inner pole mounting surface is curved with integral spurs for contact
- » The integral thimbleye will accept deadening devices up to 1/2" diameter
- » Accommodates 5/8" diameter pole mounting

Mfr. Model #	Description	BSE Part #
P294	Corner Attachment	2403801

Fiber Slack Storage

- » Allows for option to mount fiber enclosure
- » Includes 4 welded hooks for cable slack storage
- » Powder coated steel

Mfr. Model #	Dimensions	Material	BSE Part #
065-058-10	30"H x 26"W x 1.5"D	Powder Coated Steel	3386428

16" Plastic Sno-Shoe® with Mounting Bracket and Hardware

Durable and cost-effective solution for storing fiber optic cable in the air.

- » Prevents micro-bends in fiber optic cable
- » Provides consistency and regularity in fiber optic loops
- » Solution to spacing problems on poles
- » Countersunk nut wells for easy one-tool installation
- » Stackable in multiple cable configurations to accommodate fiber mount tiering
- » Cable Trough™ has slots that secure the cable to the unit in expansion situations without having to remove previously installed cable and drain water and ice
- » Cable Trough™ design leaves installers' hands free to secure cable to the unit
- » Dimensions: 24.0" L x 18.0" W x 1.5" D

Mfr. Model #	Description	Mounting Kit	Weight	Bend Radius	Quantity	BSE Part #
71244K	16" Plastic Sno-Shoe	Strand	4.4 lbs.	8"	2 Per Pack	1993958

Dura-Ty® Cable Ties

- » Weather, chemical, and UV-resistant for harsh outdoor power and communications applications
- » Durable locking mechanism, complete with double stainless steel locking barbs, provides a consistent, reliable connection and high-impact resistance and strength
- » Extra-heavy cross section, are made of weather resistant acetal

PANDUIT®

Guy Marker

- » Designed to identify down guys or other wire and cable installations where anchoring devices are exposed to pedestrian and/or vehicular traffic
- » Comes in four different profiles with six attachment combinations
- » Manufactured out of Polyethylene or PVC
- » Premium UV inhibitors for long life span
- » One or two piece designs
- » Lightweight
- » Installs on down guys in seconds
- » Easily installed on strand sizes ranging from 3/16"—1/2" (4.7–12.7 mm)
- » Reflective stripe option available
- » Deters vandalism
- » Ships in boxes, bags, or on bulk pallets

PREFORMED LINE PRODUCTS

Fiber Optic SOLUTIONS

SLACKLOOP® In-Span Cable Storage Brackets

Designed to make aerial slack cable storage faster and easier.

- » During installation, the cable is clipped into the tabs and the storage bracket is pulled into its final position at the back of the cable loop. The cable is secure and the installer's hands are free to apply cable ties
- » 12" (30.5 cm) and 16" (40.6 cm) diameter sizes
- » Available with hanger brackets for either lashed messenger cable systems or ADSS
- » Vertical stacking of multiple cables provides large storage capacity in a small profile
- » Abrasion Protectors or Uni-Group Cable Guide are offered as pole pass options for cable slack against the pole

SLACKLOOP® Vertical Cable Storage Bracket — Fixed Crossarm

Fixed Crossarm Systems are crossarms that are bolted together with a vertical member that can be bolted or banded to the structure.

- » Metal channel structural frame provides a durable light-weight design with ridged strength that is easy to install
- » Corrosion resistant aluminum
- » Bolt together fixed Crossarm packs in uniform low profile container that reduces shipping cost and is easier to inventory — supports a 33" loop diameter for ADSS cables
- » Multiple keyholes adapt various splice cases
- » Wide cable keepers avoid point loads and provide better cable support

ANCHORS

Auxiliary Eye

- » Bolts to existing anchor rods to add an additional point of attachment for guying
- » Can be used as pulling eye for guy tensioning
- » Minimum ultimate tensile strength is 18,000 lbs.
- » Thimble hole is 5/8" x 1"
- » U-bolts are 1/2" diameter
- » Cast ductile iron body and spacers
- » Galvanized per ASTM A-153

Mfr. Model #	Description	BSE Part #
BB155A	Auxiliary Eye, for 5/8" to 1" Rods	782169

PISA 6 Anchor

- » Anchor has curvilinear leading edges to help penetrate rocky soils and to reduce damage during installation
- » 1" threads to fit 3/4" and 1" diameter Pisa rod
- » Anchors are painted with a black paint
- » Installed with Chance anchor wrench C3031064 or C3030983

Mfr. Model #	Description	BSE Part #
E1020822	Pisa 6 Anchor Helix- 6,000 Ft Lbs (8,136 N-M), Two 8" (203mm) Helices for Use With 0.75" (19.1mm) or 1" (25.4 mm) Rod	569422

Bust Expanding Anchor

- » Expand to take full advantage of the eight blade wedges to expand into undisturbed soil
- » Hot dipped galvanized per ASTM A153
- » Nut retainer on bottom of anchor holds nut in place during installation
- » The effectiveness of the anchor is dependent upon proper size hole and the thoroughness of backfill tamping

Mfr. Model #	Description	BSE Part #
108234	Expanding Anchor for 10" (254mm) Hole Used with 0.75" (19.1mm) Diameter Rod	130337

Galvanized Anchor Rod

- » Available for one, two or three guys for use with expanding and Cross Plate Anchor
- » Twineye® rods distribute pulling stresses uniformly over individual strands of guy wire and keep the guy wire from spreading, kinking or bending.
- » Hot dipped galvanized per ASTM A153
- » Square nut assembled to rod
- » Rods used with Cross-plate and Expanding anchors

Mfr. Model #	Description	BSE Part #
5358	Expanding/Cross-Plate Anchor Rod 0.75" (19.1mm) Diameter Rod, 8' (2438mm) Long with Twineye	130379

Rock Anchor

- » Anchor expands and wedges against solid walls of rock
- » The large drop-forged Tripleye® rod holds up to three guy strands
- » Requires 2" diameter hole in competent rock a minimum depth of 12"
- » Hot dipped galvanized per ASTM A153

Mfr. Model #	Description	BSE Part #
R353	Expanding Rock Anchor 0.75" (19.1mm) Diameter Rod, 53" (1346mm) Long with Tripleye.	100390

No Wrench Anchors

- » Hot dipped galvanized per ASTM A153
- » Can be installed by hand or machine to a greater depth to reach a firmer soil by using an extension rod

Mfr. Model #	Description	BSE Part #
6346	No-Wrench 66" (1676mm) Long with 6" (152mm) Helix Tripleye	130393
PS816	No-Wrench 66" (1676mm) Long with 8" (203mm) Helix Tripleye	130313

Drop

HARDWARE

Steel City® Aluminum Service Cap

Clamp-type service cap for use with rigid/intermediate or thinwall conduit

- » Used with 1" trade size conduit
- » Includes 5 holes
- » Hole sizes: (2) 7/16" and (3) 1/2"
- » UL listed, CSA certified

Mfr. Model #	Description	BSE Part #
SH103	Steel City Aluminum Service Cap for 1" Conduit	162211

S-Clips

- » Form a loop with the cable end and place within the sides of the clip
- » Pinch closed to secure the cable
- » Factory formed to simplify field installation
- » Aluminum

Mfr. Model #	Type	Weight Ea.	Package Qty	BSE Part #
PSC2170155	For 1-2 Pair Cable	.005	500	3546966
PSC2170156	For 6 Pair Cable	.005	500	3546967

Fiber Optic SOLUTIONS

Drop Wire Clamp for 2-Pair Cable

- » Body and serrated shim are 304 stainless steel; and wire bail is 430 stainless
- » Packaged as 2 clamps per bag, 25 bags per box and 8 boxes per master carton
- » Rated for 555 lbs. per Telcordia specification GR-3174
- » Common industry term is P Clamp

Mfr. Model #	Material	Weight Ea	BSE Part #
C2PRSS	Stainless Steel	0.11	3547032

Drop Wire Hook

- » Attaches at the home or building with 1/4" hardware (not provided)
- » Loop drop wire clamp bail over ram's horn hook

Mfr. Model #	Material	Carton Qty	BSE Part #
CRHH	Steel	200	3547033

Drop Clamp for Flat Fiber Cable

Drop wire clamp for attaching flat fiber type communications cable to hooks, or span clamps that are installed on buildings, poles or at mid-span.

- » Body and serrated shim are 304 stainless steel; wire bail is 430 stainless
- » Strength exceeds the rated tensile strength of the applicable cable
- » Designed to fit various brands of flat fiber cable
- » Black powder coated components for identification

Mfr. Model #	Material	Carton Qty	Shim Style	Weight Ea	BSE Part #
FFD12SS	Stainless Steel	25	Serrated	1.6 oz	3547034

Wrenchable P House Hook

With wood screw thread for attachment at home or building. Loop drop wire clamp bail over 'P' section of house hook.

- » Uses 7/16" driver to install

Mfr. Model #	Length	Screw Thread	Material	Carton Qty	BSE Part #
PSC2170096	4-1/2"	#14	Steel	100	3546970
PSC2170095	3-3/4"	#14	Steel	200	3547035

Messengered Coax Drop Clamp

Attaches to hooks and span clamps to secure ends (pole, building or mid-span) of CATV messengered service drops.

- » Clamp — 5052-H32 aluminum
- » Clamp bail wire — 430 stainless

Mfr. Model #	Material	Weight Ea	BSE Part #
CMDCA	Aluminum	.05 lbs.	3382270

Drop & House Hooks

Used to secure drop cable or steel messenger wire at the pole or house.

- » Constructed of high quality steel, mechanically plated for maximum corrosion protection
- » Drop wire hook is shaped for attaching drop wire clamps or drop wire to house

Mfr. Model #	Description	Standard Pack Quantity	Carton Weight	BSE Part #
SI-1130	Drop Wire Hook	400	7 lbs.	1078511

SI-0012	House Hook, T Type, 3 Hole	100	10 lbs.	3521330

Wirewise Connectors

Used to deadend galvanized steel messenger mid-span of a service drop.

- » Rated to hold a minimum of 90% of RBS wire specified
- » Designed to support both ends of self-supporting multi-pair drop wire that uses a solid galvanized steel messenger wire that is integrated into the jacket in a Figure-8 configuration

Mfr. Model #	Wire Range	Overall Length	Cartridge Length	Bail Width	BSE Part #

Drop Clamps

Used to strain relieve telephone drop wire and support messenger drop clamp between the pole, mid-span and house.

- » Drop Wire Clamp is used to strain relieve telephone drop wire (1 to 6 pairs; is removable)
- » Fiber Drop Clamp is used to strain relieve fiber drop cable
- » Messenger Drop Clamps are used to support messenger drop clamp between the pole, mid-span and house
- » Messenger Drop Clamps accept RG 6, RG 6Q, RG 11 and RG 59

HDPE Conduit

Blue Diamond HDPE products protect many of the largest fiber optic networks in the United States.

- » Easy installation, HDPE is the preferred material for HDD because of its long continuous lengths and high pull strength
- » A wide temperature range for installation, from -20°C to 90°C operating temperature for cables
- » A low coefficient of friction (20% lower than PVC) to allow for long cable pulls
- » Tough, durable and a life expectancy well over that of the fiber/cable inside
- » Replace or repair fiber/cable lines without digging or trenching
- » Chemical and corrosion resistance
- » Blue Diamond complies with RUS/USDA standards, meets Buy America Requirements and all national specifications including ASTM, NEMA, and UL

1" Type LB PVC Conduit Body

CANTEX 1" Conduit Body Type LB provides pull, splice and tap access for conductors in a conduit system along with a change in direction.

- » Provides a 90° turn in conduit run
- » Made from non-conductive PVC
- » Will not rust or corrode
- » Includes lid, gasket and screws
- » For use with Schedule 40 & 80 conduit
- » Made in USA

Mfr. Model #	Description	BSE Part #
5133665	UL LISTED QCMZ, 1.313" Hubs, 90° Turn, 11.8 Cubic Inches, 3-Wire Fill for #6 or Smaller, Neoprene Gasket, Zinc Plated Steel Screws	3326855

Riser Pipe

Protect your fiber from the ground to the NID.

- » Variety of options
- » Curved and notched
- » Slit back option for easy cable insertion
- » Low cost job "insurance" for delicate fiber installations

Fiber Optic SOLUTIONS

Fiberguide® Optical Raceway Solutions

FiberGuide is a comprehensive raceway solution designed to protect and route fiber optic patch cords and multi-fiber cable assemblies to and from fiber splice enclosures, fiber distribution frames and fiber optic terminal devices.

- » All components provide maximum fiber protection
- » Minimum 2-inch bend radius throughout
- » Wide variety of components for system flexibility
- » Supports systems of 400 to 25,000 patch cords
- » Available sizes: 2x2, 2x6, 4x4, 4x6, 4x12, 4x24
- » Variety of exit styles and sizes
- » Vertical and on-demand fiber management systems

PV-MOLD® Nonmetallic Pole Riser System — Heavy Duty Schedule 40

A nonmetallic pole riser system designed to protect communications power cable installed on poles.

- » Designed in accordance with NEMA TC-19 specifications
- » Ultraviolet, cold temperature and corrosive atmosphere resistant
- » Schedule 40 wall meets Schedule 80 PVC conduit impact requirements per NEMA TC-19
- » No grounding required
- » Belled end fits over each added section or conduit
- » Requires no maintenance
- » PV-Mold acts as an insulator against electrical shock
- » Interchangeable parts and accessories to match the needs of specific requirements
- » Flanged overall length, including bell is 10 Feet
- » Impact @ OC 20 lb. Tup (ft.-lbs.): 100
- » Impact @ 23C 20 lb. Tup (ft.-lbs.): 300

Grounding & **BONDING**

Blackburn® Parallel Groove Connector Jumper Clamp

Easy installation with a secure fit.

- » Made of copper alloy for high strength and durability
- » Silicon-bronze hex-head washer bolt ensures a super-secure fit
- » Parallel-groove design eliminated the need to remove the bolt for installation
- » For use with aluminum, Amerduct or galvanized steel strand to copper or copper-bonded steel wires
- » Wire range for plated groove: #6 AWG to 1/0 ACSR
- » Wire range for copper groove: #8 AWG solid to 2/0 AWG stranded

Mfr. Model #	Description	BSE Part #
K1	Copper Type K Jumper Clamp	142585

Blackburn® HLC™ Hot-Line Clamp

With protected threads.

- » Eyebolt coated with grease to ensure easy turning in all weather conditions
- » Bronze construction for copper-to-copper applications
- » 35kV rated
- » Wire range for main and tap: #8 AWG solid to 2/0 AWG stranded
- » UL listed, CSA certified

Mfr. Model #	Description	BSE Part #
HLC2108	Blackburn HLC Hot-Line Clamp for #8 Solid to 2/0 Stranded	441742

Blackburn® Type L Copper Mechanical Lug

Single-conductor, single-hole mount.

- » Cold forged from pure electrolytic copper with 99% conductivity
- » Screwdriver slot-head screw
- » Conductor range: #14 AWG solid to #4 AWG stranded
- » UL listed, CSA certified

Mfr. Model #	Description	BSE Part #
L70	Blackburn Type L Copper Mechanical Lug for #14 Solid to #4 Stranded	142283

Blackburn® Type H High-Strength Split-Bolt Connector

For copper-to-copper connections.

- » Hex-design bolt and nut made of high-strength, corrosion-resistant bronze alloy
- » Copper alloy pressure bar
- » Tested and listed to UL486C, UL467 for grounding and for direct burial
- » Conductor range for equal main and tap: #6 AWG solid to #10 AWG solid (will accommodate three wires of maximum size)
- » Conductor range for minimum tap with one maximum main: #16 AWG stranded
- » UL listed, CSA certified

Mfr. Model #	Description	BSE Part #
6H3	Blackburn Type H Split-Bolt Connector, #6 Solid to #10 Solid	142456

Scotchlok™ Shield Bond Connectors

- » Designed to make a stable and low resistance electrical connection between communications cables of .80" diameter or less (100 pair, 24 ga. and under) and a conductor such as a strap, wire or braid

Mfr. Model #	Description	BSE Part #
80610414866	4460-D Shield Bond Connector	167593

#6 AWG Insulated and Bare Flexible Harnesses

- » For bonding and grounding in pedestal new construction and retrofitting
- » Standard lengths all RUS Listed
- » Ring terminals at both ends

Mfr. Model #	Length	BSE Part #
EM8100-4.10	#6 AWG Insulated Flexible Harness, 4"	1979988

Many configurations and lengths available — contact your BSE representative for details.

Anchor Rod Bonding Clamps

For Expanding, Crossplate, and Rock Anchor Rods.

- » Bonding clamps maintain a dependable mechanical and electrical pressure contact between guy strand and anchor rod when the guy is part of the grounding system
- » Cast aluminum body
- » Designed to fit Hubbell Power Systems anchor system
- » RUS listed

Mfr. Model #	Anchor Rod Style	Anchor Rod Diameter	Material	BSE Part #
G5060	Thimbleye®	1/2", 5/8", & 3/4"	Aluminum	100203
G5061	Twineye®	5/8" & 3/4"	Aluminum	100205
G5063	Tripleye®	3/4" & 1"	Aluminum	100206

Messenger Ground Clamp

- » Bolt can be removed so that the clamp can be dropped over the messenger
- » Hot-dip galvanized per ASTM A-153

Mfr. Model #	Steel Size	Length	Bolt Size	Weight Ea	BSE Part #
7956	3/16" x 1-3/4"	1-3/4"	1/2" x 1-3/4"	0.61 lbs.	574423

Grounding Clamp

Grounds copper wire or cable to pipe or rod.

Mfr. Model #	Type	Rod Diameter	Weight Ea.	Material	BSE Part #
GC5G5	Normal Duty	5/8"	.11 lbs.	Bronze	120795

Vise Type Grounding Clamp

General use vise type bronze copper to copper

- » For copper connections-Splice, Loop deadend or service entrance tap or grounding connections
- » One piece design for easier, faster installation
- » Bolt head design for use with standard ratchet wrench
- » Vise design achieves high connector pressure with low wrench force

Mfr. Model #	Conductor Max x2	Conductor Min x2	Dia. Range (2 Cond. Combo)	Weight Ea	Bolt Head (Hex)	BSE Part #
GC5006SH	#6 SOL	#10 SOL	.162"-.101"	.09 lbs.	3/8"	152798

Ground Block

Provides ground path between drop and ground wire.

- » Stainless steel construction
- » New Ground clip mechanism provides for fast and easy termination of up to #10 ground wire

Mfr. Model #	Description	BSE Part #
SI-GB-10	Ground Block	3521342

Grounding Connectors

Used to provide a solderless connection between ground wires.

- » Vise-type connectors made of corrosion resistant, high strength bronze
- » Fast easy connection

Mfr. Model #	Description	Conductor Range	BSE Part #
SI-2140	Grounding Connector	Min. 2-#2 SOL, Max. 2-2/0 STR	3521352
SI-2170	Grounding Connector	Min. #6, Max. #8	1078503

Ground Rod Clamps

Used to provide a solderless connection between #6 ground wire and a ground rod.

- » Clamps are constructed of cast bronze
- » Available in vibration proof, anti-loosening versions
- » UL & CUL listed

Mfr. Model #	Description	BSE Part #
SI-0038C	Ground Rod Clamp, Economy, 5/8"	3521353
SI-2142	Ground Rod Clamp, Heavy Duty	3440404

Universal Grounding Straps

Positive Grounding connection to water pipes, electrical conduits and ground rods.

- » Features new captive nut, which prevents loss of nut during installation
- » Features patented curved nut, which gives a more reliable, secure connection to pipe
- » Set screw stud assembly is compatible with a standard terminal wrench
- » Set-screw stud assembly is compatible with a standard terminal wrench and allows ground wire changes without loosening clamp
- » Available in 6,9, or 12 inch lengths with copper or galvanized straps

Mfr. Model #	Size	BSE Part #
SI-0954-12	12" Strap	3521343

SI-0958-9	9" Strap	3521348

Fiber Optic SOLUTIONS

Inner System Bonding Terminal

Provides convenient, quick method to innerconnect ground wires from multiple communications systems to a single main ground.

- » Meets requirements of 2008 NEC® Article 250.94
- » Allows for up to five connections of conductor sizes #14 AWG Solid–#4 AWG Solid
- » Allows for connection to main conductor size of #6 AWG Solid #2 AWG Stranded
- » Captive swivel cover swings out of the way for easy installation
- » Includes mounting hardware
- » Base and cover constructed of impact resistant, UV stabilized polymer

Mfr. Model #	Description	BSE Part #
SI-IBT	Inner System Bonding Terminal	3521354

Ground Tag

Used to identify grounding connections.

- » Made of aluminum, green paint
- » CATV Ground

Mfr. Model #	Description	BSE Part #
SI-TAG-100	Ground Tag	3521351

Water Pipe Clamp

Ideal in bonding copper ground wire to galvanized or copper pipe and conduit.

- » Bronze or galvanized
- » Accepts #14 AWG to #6 AWG copper wire

Mfr. Model #	Description	BSE Part #
SI-5948	Water Pipe Clamp — Bronze	3521349
SI-5948G	Water Pipe Clamp — Galvanized	3521350

Meter Box Clamps

Engineered to provide a positive ground connection to customer meter boxes without the need for a ground rod, ground rod clamp, or long ground wire runs.

- » Patented screw design (cone & tip arrangement for intimate ground to base metal)
- » No need to loosen clamp to attach or remove ground wires
- » No preparation of meter box surface required
- » Patented
- » UL & CUL listed

Mfr. Model #	Description	BSE Part #
SI-2165	Meter Box Clamp — Side Bar	3521339
SI-2167	Meter Box Clamp — Lip Style	3521340
SI-2167SLM	Meter Box Clamp — Slim Style	3521341

Split Bolt

High Strength corrosion resistant copper alloy connectors for use in bonding applications.

- » Designed to provide high clamping force
- » Split bolt will accept on any combination of two conductors shown in the chart below
- » UL and CUL listed

Mfr. Model #	Description	Min. Pair	Max. Pair	BSE Part #
SI-2004	Split Bolt	#8 SOL	#4 SOL	3535157

Copper-Bonded Ground Rod, Pointed

- » 99.9% pure electrolytic copper coating
- » Molecular bond to nickel-sealed high strength steel core
- » Rods have a high carbon steel core and tip that provide superior strength when driving
- » Copper coating will not crack when bent or tear when driven
- » Minimum copper coating of 10 mils on rods listed to UL® 467

- » nVent ERICO name, length, diameter and part number is roll-stamped within 12" (304,8 mm) of chamfered end
- » UL logo and control number where applicable stamped on each rod for easy inspection after installation

Hammerlock Ground Clamp

Connect and protect.

- » Irreversible connection with excellent mechanical strength
- » Fast and simple installation requires only a hammer
- » No special training required
- » Low resistance connection

- » Provides a visual indication of completed connection
- » Allows for "T" or pass-through connections
- » Copper bonded
- » cULus certification

Fiber Optic SOLUTIONS

Polymer Concrete Boxes and Covers

Quazite enclosures offer not only improved manageability and cost-efficiency over other enclosures, but peace of mind as well.

- » Meets or exceeds ANSI / SCTE 77 Tier Ratings
- » High strength and durability
- » Cost effective
- » Nonconductive and nonflammable
- » Stable under freeze / thaw conditions
- » Impact resistant
- » All hardware is hot dip galvanized or stainless steel
- » Custom logos and colors available
- » Polymer materials do not rust or corrode

Vertiv Outside Plant Pedestals

Vertiv pedestals are designed to Telcordia GR-13 specifications and are a perfect fit for your fiber optic applications regardless of the environmental conditions.

- » BBE BD Series UPCBDs — Round-cornered, square-design, mill-galvanized steel enclosures suitable for copper and fiber distribution. UPCBD3, 4 and 5 include dielectric shield, cable ties and shield isolation bonding/grounding bracket. Fiber distribution kit (holds up to 5 splice trays, slack storage and drops) available for BD4 or 5
- » BBE PRO Series pedestals — Ideal for applications where non-metallic construction, flood protection or 360° access is desired. Split-base design. Includes multiple slide and secure mounting plate assemblies with self-latching dome covers. Offers more mounting space and slack storage than similar-sized round pedestals
- » BBE OPFO Series pedestal enclosures — Designed to protect fiber optic splices and equipment. Large enclosures accommodate most third-party splice closures. Cable management posts for maximum storage of cable. Ground bar (OPFOP) and mounting hardware included
- » FDH Series compact pedestal — Features a metallic integrated fiber distribution hub. Provides connections between fiber cables and passive optical splitters in an outside plant environment. Ideal for PON FTTx architecture. Includes 100 ft. dielectric loose tube, SC/APC. Splitters sold separately

Coax F and BNC Compression Connectors

Robust brass design provides a permanent connection to coaxial cable using industry standard compression tools.

» Clear InSite® 360° window for confident cable insertions on all BNC connectors

» Nickel-plated, brass-construction for superior corrosion resistance

» Moisture-inhibiting design for BNC's

» RTQ™ XR™ Fits 60% regular, tri-shield and quad shield cables (92-650)

» Designed for use in satellite and cable TV installations (92-650)

» Z6F Fast + Simple compression, no braid folding required (92-641)

» Simplifies RG-6 Quad cable preparation — easier to attach connector to cable

» All IDEAL compression connectors work with the 30-793 compression tool

» Cable Prep Length: 1/4" x 1/4"

» Impedance: 75 Ohm

PROTECT

your assets

Border States can also be your provider of a complete line of Security and Surveillance products.

Feed-Thru and Standard RJ-45 Modular Plugs

Field terminate CAT5e or CAT6 RJ-45 plugs to twisted pair cable.

- » 50 micron plated gold contacts, 8-position, 8-contact
- » All plugs are UL Listed
- » All IDEAL RJ-45 modular plugs are compatible with the 30-495 FT-45 Crimp Tool
- » Feed-Thru plugs simplify installation allowing verification of conductor order before crimping
- » Feed-Thru plug design allow a flush cut removing the excess conductor
- » Compatible with PoE and PoE+ applications
- » Standard plugs are compatible with quality industry standard crimping tools
- » Number of Contacts: 8
- » Sol or Str conductor type
- » Impedance: 100 Ohm

Pro Series High Speed HDMI® Cables with Ethernet

The Pro Series High Speed HDMI® Cables provide integrators with future-proof solutions ideal for today's full 4K, HDR installations.

- » Full 18Gbps bandwidth
- » UltraHD- 4K@60Hz- 4:4:4 chroma sampling
- » Enables transmission of High Dynamic Range (HDR) video
- » EMI tested to ensure cables minimize interference with wireless signals
- » 100% Aluminum Shielded Connector — 360 degrees of coverage
- » Up to 32 audio channels with ARC for a multi-dimensional immersive audio experience
- » HD Audio Formats such as DTS-HD Master Audio- Dolby TrueHD- Dolby Atmos- and more
- » Support for the wide angle theatrical 21:9 video aspect ratio
- » Future-proofed and perfect for today's 4K/UltraHD environment
- » UL Listed- CL3 Rated

MARKERS

3M™ Extended Range Ball Markers

Unlike surface features, maps and other methods of recording position, the 3M™ Extended Range Ball Markers are a constant point of reference you can depend on.

- » 4 inch self-leveling sphere
- » Specially designed for locating flush mounted facilities covered by backfill
- » Affixes to underside of non metallic lids or covers over flush mounted facilities
- » Self align marker offers positive identification of facilities
- » Self-leveling design for precise and horizontal positioning
- » Works without any external power source
- » Operate in all soil types; under asphalt; cement; and wet or dry soil
- » Provide easy positive identification with each utility having its own frequency;
- » Color-coded APWA standards
- » 3M™ iD Markers have additional option to include customer specific information (i.e. facility data, material type/size, application type and placement date)

MEGASTRETCH™ Hi Stretch Non Detectable Tape

Stretches up to 10 times its length before breaking; its blended polymers create a unique, strong yet stretchable warning tape for the telecommunications industry.

- » Environmentally safe
- » Permanent messaging
- » Lead free
- » Wear resistant

Mfr. Model #	Size	BSE Part #
25-071	3" x 6000'	1319025

Terra Tape® Extra Stretch™ II

Terra Tape® Extra Stretch™ II is a 100% virgin pigmented polyolefin film with a printed message on one side.

- » Ink used to print the material is permanent and cannot be removed by normal handling or upon long term underground burial
- » Material and ink are chemically inert and will not degrade when exposed to acids, alkalies and other destructive substances commonly found in soil
- » Material is available in orange. Other colors may be available upon request

Mfr. Model #	Description	Imprint	BSE Part #
42-0159	Orange 3" x 6000'	"CAUTION FIBER OPTIC CABLE BURIED BELOW"	2671368

TriView Marking Post

Alerts 3rd party excavators and facility owners that there is buried cable in the area.

- » Triangular shaped marker with Warning message decals on each side is visible from any angle
- » Warning message decals are multi-colored
- » Made of engineered UV resistant thermoplastic that resists fading
- » Will rebound if hit by cars, trucks, etc
- » 10 year warranty against significant fading
- » Other lengths available in 6" increments up to 90" long

Mfr. Model #	Description	BSE Part #
TVF48-OB	48" Long, Orange, Black Cap	1557357

Cable Clipper® Marker

- » 6.125" x 1.625" PVC caution fiber optic cable marker
- » Black-on-orange label with black clip

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
CC-SHORT	0.5" Diameter Cable	500	25 Per Pack	3539048
CC-SHORT-1	1.0" Diameter Cable	500	25 Per Pack	3539049

Fiber Optic SOLUTIONS

SnapAround® Cable Marker

- » Caution fiber optic cable marker
- » Orange with black print

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
SA1	4"x 4" (.375"-1.0" diameter cable)	250 Markers	50 Per Pack	3240230
SA3	7"x 4" (.375"-1.0" diameter cable)	250 Markers	50 Per Pack	3539047

Curb Marker

- » 4" diameter domed disk for marking curbs
- » Outdoor durable
- » Custom printed black on orange
- » Use adhesive PS-800.

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
CM-FOC4	Caution Fiber Optic Cable Curb Marker	500	50 Per Pack	3539052

Adhesive

- » Used for mounting polyethylene signs, tags or curb markers
- » Ideal for concrete and cement surfaces

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
PS-800	11 oz. Tube Industrial Bonding Adhesive	1	1 Tube	3539053

6FT DomedPost®

- » White post with orange molded dome, black molded-in graphics
- » Includes anchor

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
DOMEPST6-FOC	6' Dome Marker Post	100	Pallet	3539054

6FT FlexPost®

- » Orange post with custom printed black-on-orange decal applied
- » Includes anchoring system

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
FLEXPOST66-FOC	6' Flexible Line Marker Post	50	Pallet	3539055

Soil Marker

- » Warning buried fiber optic cable marker for "Flush" above ground markings
- » 7" disk, printed black on orange, with 13" 2-barb stake
- » Graphics are molded into disk

Mfr. Model #	Description	Minimum Order	Packaging	BSE Part #
SOIL-BFOC-DND	Warning Buried Fiber Optic Cable Marker	100	25 Per Pack	3539058

Wire & CABLE

Solid Soft Drawn Bare Copper Wire

- » Highest conductivity per unit area of all common commercial metals
- » Excellent corrosion resistance
- » Flexible; easily worked and formed into place
- » Packaged on non-returnable spools for easy transportation to job sites
- » Good fatigue-resistance; not subject to breaks due to nicks or cuts when terminating
- » Totally recyclable with high scrap value

Mfr. Model #	Conductor Size	Conductor Material	Wire Length	BSE Part #
BARESD6SOLCU315R	6 AWG	Copper	315' Reel	2243917
BARESD6SOLCU2500R	6 AWG	Copper	2500' Reel	2243927

THHN and TFN Solid Copper Conductor — 600V

- » Solid, uncoated copper conductors per ASTM-B3
- » Color-coded PVC insulation, heat- and moisture-resistant and flame-retardant
- » Tough polyamide jacket with nylon outer cover
- » Type THHN building wire is commonly used for general-purpose applications as defined by the National Electrical Code (NEC)
- » Type TFN is primarily used as fixture wire as defined by the NEC at temperatures not to exceed 90°C in dry locations

Mfr. Model #	Conductor Size	Jacket Color	Wire Length	BSE Part #
THHN14BLKSOLCU2500R	14 AWG	Black	2500' Reel	2243917
TFN16GRNSOLCU2500R	16 AWG	Green	2500' Reel	2243927

1/4" EHS 7-Wire A475 Guy Wire Class A and 3/8" HS 7-Wire A363 Static Strand Class A

- » 1/4" EHS is commonly used as messenger wire, reinforcing fiber optic cables for overhead data lines, and is also applicable as guy wire
- » 3/8" HS is crafted with reinforced steel cores for superior quality and durability as a static strand or overhead ground wire (OHGW)
- » Both are hot-dip galvanized with Class A coating weight

Mfr. Model #	Description	BSE Part #
14EHS7WYCLSA7 STR5000FTRLA475	1/4" EHS 7-Wire A475 Guy Wire Class A, 5,000' Reel	3012517
3/8 HS ASTM A363 5000FT COIL"	3/8" HS 7-Wire A363 Static Strand Class A, 5,000' Reel	3385798

Category 5e Cable

Enhanced Transmission Throughput.

- » 24 AWG solid bare annealed copper conductors
- » Polyolefin Insulation
- » Rip Cord applied longitudinally under jacket
- » Flame-retardant PVC jacket
- » TRU-Mark® print legend contains footage markings from 1000' to 0'
- » IEEE 802.3: 1000 BASE-T (Gigabit Ethernet), 100 BASE-TX, 10 BASE-T
- » 52/155 Mp/s ATM
- » ANSI X3.263: 100 Mb/s
- » 4/16 Mp/s token ring
- » ANSI/TIA/EIA 568 B.2 (Category 5e)
- » ICEA S-90-661 (Category 5e)
- » UL & c(UL) Type CMR (UL 1666) for Non-Plenum
- » UL 444
- » RoHS Compliant Directive 2011/65/EU
- » Third-party verified for guaranteed performance

High Strength — 1430 CCS Tracer Wire

- » 30 mil HDPE insulation
- » 282-lb break load
- » 2 times the breaking strength of solid copper
- » 11% lighter than solid copper means reduced freight expenses
- » Copper-clad steel (CCS) wire combines the strength of fully annealed high-carbon steel with the conductivity and corrosion resistance of solid copper
- » Bonded metals mean no separating, no corrosion, and no theft appeal
- » More stable pricing than solid copper
- » Rated for direct bury
- » Color-coded to meet American Public Works (APWA) standards for utility identification

Mfr. Model #	Description	BSE Part #
1430NHS2500	#14 AWG (0.0641" diameter) Fully Annealed, High Carbon 1055 Grade Steel, High Strength Solid Copper-Clad Steel Conductor (HS-CCS) Rated at 30 Volts, Insulated With a 30 mil, High-Density, High Molecular Weight Polyethylene (HDPE) Insulation Rated for Direct Burial Use at 30 Volts	3250263

PVC Telecommunications Ground Wire

Manufactured from annealed, solid copper conductors, providing high conductivity and flexibility.

- » PVC insulation is available in a wide range of colors: black, beige, olive, gray, and green
- » Standard shipments in 200 ft., 300 ft., and 500 ft. lengths; other lengths available upon request

Mfr. Model #	Size (AWG)	Length	Color	BSE Part #

EnduraGain OSP Broadband BBDN

BBDN is an Outside Plant (OSP) Broadband category cable.

- » Transmission performance characterized to 500 MHz for CAT 6A/6 and 350 MHz for CAT 5e
- » 8 mil aluminum tape shield
- » Dry block between shield and inner jacket
- » Assures ample overhead for reliable transmission in an OSP-rated cable allowing extension of the premises LAN
- » Rugged shield provides protection against EMI/RFI
- » Prevents water ingress between shield and inner cable preventing damage to equipment
- » 4 pair, solid annealed copper conductor with polyolefin insulation
- » 1,000' reel

Mfr. Model #	Category	Type	BSE Part #
04-001-54	CAT 5e	Shielded FTP	1727064

04-001-64	CAT 6	Shielded FTP	3535163

EnduraGain OSP Broadband BBDG

BBDG is an Outside Plant (OSP) Broadband category cable.

- » Transmission performance characterized to 500 MHz for CAT 6A/6 and 350 MHz for CAT 5e
- » Corrugated, copper-clad steel armor
- » Dry block between armor and inner jacket
- » Assures ample overhead for reliable transmission in an OSP-rated cable allowing extension of the premises LAN
- » Rugged shield provides protection against EMI/RFI and provides rodent resistance
- » Prevents water ingress between armor and inner cable preventing damage to equipment
- » 4 pair, solid annealed copper conductor with polyolefin insulation
- » 1,000' Reel

Mfr. Model #	Category	Type	BSE Part #
04-001-55	CAT 5e	Armored	2673148

Fiber Optic SOLUTIONS

EnduraGain OSP Broadband BBD

BBD is an Outside Plant (OSP) unshielded Broadband category cable.

- » Transmission performance characterized to 500 MHz for CAT 6A/6 and 350 MHz for CAT 5e
- » Unshielded
- » PFM gel-filled core construction
- » Assures ample overhead for reliable transmission in an OSP-rated cable allowing extension of the premises LAN
- » Small robust, design
- » Prevents intrusion of moisture and easily wipes clean during installation
- » 4 pair, solid annealed copper conductor with polyolefin insulation
- » 1,000' reel

Mfr. Model #	Category	Type	BSE Part #
04-001-58	CAT 5e	Unshielded UTP	2308226
04-001-68	CAT 6	Unshielded UTP	2692591

EnduraGain OSP Broadband Indoor/Outdoor Halogen-Free CM/CMX

BBD Indoor/Outdoor Halogen-Free is a CM/CMX rated category cable combining Outside Plant (OSP) Broadband features with an indoor application.

- » Transmission performance characterized to 500 MHz for CAT 6A/6 and 350 MHz for CAT 5e
- » Dry block between armor and inner jacket
- » Assures ample overhead for reliable transmission in an OSP-rated cable allowing extension of the premises LAN
- » Rugged shield provides protection against EMI/RFI and provides rodent resistance
- » Prevents water ingress between armor and inner cable preventing damage to equipment
- » 4 pair, solid annealed copper conductor with polyolefin insulation
- » 1,000' reel

04-001-62	CAT 6	Shielded Indoor/Outdoor FTP	Coated Aluminum Tape	3535168

Category 5e CMR/CMX Outdoor Sunlight Resistant

Category 5e CMR/CMX Outdoor Sunlight Resistant cable is specifically designed for extreme sunlight and temperature applications.

- » Combines indoor/outdoor applications into one product
- » Exceeds UL 444
- » Meets ANSI/TIA-568-C.2 specifications
- » Provides cost-effective solution
- » 720 hour sunlight resistant specification
- » Resists damage conditions that might weaken standard packages
- » 4 pair, solid annealed copper conductor with polyolefin insulation
- » 1,000' Reel

Mfr. Model #	Type	Jacket Color	BSE Part #
51-240-E1	Indoor/Outdoor U/UTP	Black	3327540

Category 5e CMR/CMX Outdoor

Category 5e CMR/CMX Outdoor cable is specifically designed for outdoor applications.

- » Combines indoor/outdoor rating
- » Tough, weather resistant PVC jacket
- » Meets ANSI/TIA-568-C.2 specifications
- » Increases life of cable by providing low temperature hanging and UV resistance ; cable jacket resists cracking over time
- » Reduces inventory by eliminating multiple cable types
- » CAT 5e compliance
- » 4 pair, solid annealed copper conductor with polyolefin insulation
- » 1,000' Reel

Mfr. Model #	Type	Jacket Color	BSE Part #
51-240-11	Indoor/Outdoor U/UTP	Beige	169647
51-240-31	Indoor/Outdoor U/UTP	Gray	169565

CLEANING

One-Click® Cleaners

Easy one push action quickly and effectively clean the end-face of connectors on jumpers or through adapters.

- » Precise mechanical action delivers consistent cleaning results
- » Automatically advance ensures each clean is performed with fresh cleaning tape
- » Low cost per clean

Mfr. Model #	Description	BSE Part #
8500-05-0001MZ	One-Click Cleaner SC, ST, FC (500+ cleans)	2406256

CLETOP (ACT) Adapter Cleaning Sticks

Easy and efficient means of cleaning fiber optic connectors in adapters and cleaning alignment sleeves.

- » Delivers a consistently high level of cleaning performance
- » Easy to clean ferrule end-faces inside the plug-in fiber optic connectors and various adapters
- » Compact and disposable

Mfr. Model #	Description	BSE Part #
8500-10-0022MZ	1.25 mm Single-Ended Sticks (box of 200 — 40 bags of 5 sticks per bag). For LC and MU.	3504321
8500-10-0023MZ	2.0 mm Single-Ended Sticks (box of 200 — 40 bags of 5 sticks per bag). For Military and High Definition Video (LEMO).	3504322
8500-10-0024MZ	2.5 mm Single-Ended Sticks (box of 200 — 40 bags of 5 sticks per bag). For FC, SC, ST, and D4.	3504323
8500-10-0030MZ	2.0/2.5 mm double-ended sticks (box of 100 — 100 bags of 1 stick per bag). For Military and High Definition Video (LEMO).	3504324

CCT Connector Cleaning Tips

Uses a molded, sintered polymer that is both porous and pliable, conforming to virtually any fiber end-face polish geometry.

- » Unlimited shelf life
- » Dual-head design permits wet and dry cleaning in one swab
- » Traps and holds liquid and particle contaminants in an absorbent open cell matrix ranging from 10-25 microns
- » No fibers, binders, adhesives or outgassing that may contaminate the connector

Mfr. Model #	Description	BSE Part #
CCTP-25-0900MZ	For exposed 2.5 mm, 2.0 mm, 1.6 mm, 1.25 mm ferrules and termini (FC, SC, ST, LC, MU, etc., jumpers, male MIL T 29504/14 for MIL C 28876 and MIL T 29504/04 for MIL C38999)	3505194
CCTS-12-0900MZ	For 1.25 mm ferrule in adapters or sockets (LC, MU, etc., in adapters)	3505196
CCTS-16-0900MZ	For MT-RJ connectors and 2.0 mm and 1.6 mm termini in sockets (female MIL T 29504/15 for MIL C 28876 and MIL T 29504/05 for MIL C 38999, MT-RJ both jumpers and adapters)	3505198
CCTS-25-0900MZ	For 2.5 mm ferrule in adapters or sockets (SC, FC, ST, etc. in adapters)	3505200
CCTX-MT-0900MZ	For Biconic and MT ferrule connectors both jumpers and in adapters (Biconic, MTP, MPO, MPX, etc.)	3505204

Fiber Optic SOLUTIONS

Cletop Optical Fiber Connector Cleaners

Rugged handheld tools for cleaning fiber optic connector end faces.

- » Simple push-button shutter application
- » Compact lightweight design
- » Easily replaceable cost-effective tape cartridges
- » Over 400 wipes per tape

Cletop Options:

- » Cletop Series: Original
- » Cletop-S Series: Second generation cleaner offering "Drop-in" replacement tape cartridge and ergonomic design
- » Type A & -SA: Designed for single 2.5mm ferrules (SC, FC, ST, & D4)
- » Type B & -SB: Cleans SC, SC2, FC, ST®, DIN, D4, MU, LC, MT, MPO/MTP® without pins

8500-10-0021MZ	Replacement Tape, Type S - Blue	1980461

CleanWipes

For high-speed cleaning of optical jumpers and patch cords.

- » High-modulus cleaning material won't rip, tear, shred, or lint
- » Super-soft material won't scratch end-faces
- » Static-dissipative material eliminate static

Mfr. Model #	Description	BSE Part #
9000-03-0031MZ	600 Optical Quality Wipes (1 box)	3535146

FCC2 Enhanced Formula Connector Cleaner and Preparation Fluid

A non-flammable, environmentally safe, residue free solvent engineered to easily remove contaminants from fiber optic end-faces and bare fiber.

- » Not Hazardous/Not Regulated for all modes of transport, including air cargo
- » Unique dispenser for use with AFL Connector Cleaning Tips and FiberWipes
- » Safe on all surfaces including soft plastics
- » Up To 400+ cleanings per can

Mfr. Model #	Description	BSE Part #
FCC2-00-0902	Enhanced Formula, (3 oz/85 g) Fiber Connector Cleaner and Preparation Fluid (1 can)	3245657
FCC2-00-0903	Enhanced Formula, (3 oz/85 g) Fiber Connector Cleaner and Preparation Fluid (case of 12 cans)	3275609
FCC2-10-0902	Enhanced Formula, (10 oz/283 g) Fiber Connector Cleaner and Preparation Fluid (1 can)	3505763
FCC2-10-0903	Enhanced Formula, (10 oz/283 g) Fiber Connector Cleaner and Preparation Fluid (case of 12 cans)	3505764

FCP Field Portable Connector Cleaning Kits

- » Complete kits for cleaning SC, ST, FC, LC, MU, and MPO connectors
- » Includes products for cleaning connectors on jumpers and through bulkhead adapters
- » Includes wet and dry cleaning products to effectively clean a variety of contaminants
- » Carrying case

Mfr. Model #	Description	BSE Part #
FCP2-00-0901	FCC2 cleaning fluid, FiberWipes, Cletop-SB, SC and LC One-Clicks, Debris Destroyer, MPO One-Click, Duffle Bag	3505784
FCP2-10-0900	FCC2 cleaning fluid, FiberWipes, Cletop-SB, SC and LC One-Clicks, Debris Destroyer, Duffle Bag	3535147

FCC3 Debris Destroyer® Fiber Cleaning Pen

Cleans fiber optic connectors and bare fiber. It can be used for controlled application of cleaning fluid to One-Click Cleaners, cassette cleaners, sticks and wipes.

- » Removes dirt, dust, oils, and other debris
- » Eliminates electrostatic charge
- » Safe with plastic components

Mfr. Model #	Description	BSE Part #
FCC3-00-PEN1	Debris Destroyer — Fiber Optic Cleaning Pen (1 pen)	3472017

FiberWipes

Lift and trap common contaminants found in fiber optic installations. FiberWipes provide superior cleaning results from material that is stronger and more absorbent, yet softer than traditional cellulose wipes.

- » Lint free
- » Fully optical grade
- » Robust and tear-resistant

Mfr. Model #	Description	BSE Part #
9000-03-0025MZ	FiberWipes — 90 Optical Quality Wipes Per Tub, (1 tub)	2650998
9000-03-0026MZ	FiberWipes — 90 Optical Quality Wipes Per Tub (1 case of 24 tubs)	3504410
9000-03-0027MZ	FiberAide 1 — 600 Lint Free Wipes For Single Use (12 bags of 50 wipes)	3401959

Kimtech Science™ Kimwipes™ Delicate Task Wipes

Delicate wipers for light-duty and precision cleaning.

- » Easily wipe up liquids, dust and tiny particles and are designed for delicate tasks
- » Feature one-at-a-time dispensing for minimized waste
- » Anti-static dispensing system reduces lint and electrostatic discharge (for sensitive environments like labs)
- » Each wiper is 4.4" x 8.4" and useful for polishing glassware, cleaning laboratory instruments and other delicate surfaces
- » 280 wipers per box, 30 boxes per case, 8,400 wipers per case total

Mfr. Model #	Ply	Unit Size	BSE Part #
34120	1	8.4" x 4.4"	3547777

AquaKleen™

Water-based fiber optic cleaner.

- » Nonflammable: Safe to use
- » Nonhazardous for Shipment: No restrictions via land or air shipping
- » Maintains Equipment: Prolongs the life of costly fiber-splicing units by cleaning heat strippers V-grooves, and camera lenses
- » No Toxic Solvent Fumes: No irritating solvent vapor exposure
- » Made with Pure Deionized Water: No residue after evaporation to affect light transmission

Mfr. Model #	Description	Units/Case	BSE Part #
AQ-2LP	AquaKleen™ Type AQ™ 2-Oz Finger Sprayer	12	3002915
AQ-KIT2	AquaKleen™ Kit with Finger Sprayer	1	3002917

Microfiber Towels

These lint-free towels can be used to clean ferrules, bulkheads, and fiber endfaces.

- » Versatile: Use DT towels to apply AquaKleen
- » Non-Linting: DT towels are non-linting
- » Multi-use: Clean ferrules, bulkheads, and fiber endfaces
- » Highly absorbent

Mfr. Model #	Description	Units/Case	BSE Part #
DT-D175	175-Towel FiberKleen™ Dispenser w/Cleaning Pad	12	3002916
DT-D50	50-Count FiberKleen™ Dry Towel Canister	8	2729046

Type FO™ Alcohol Fiber Optic Cleaner

- » Excellent Solvency: Removes oil, dust, and other contaminants
- » 99.8% Anhydrous Isopropyl water-free for fiber optic cleaning
- » Large Cleaning Wipe: 5" x 8" wipe means longer working time and more cleaning per wipe
- » No Residue: No interference with light transmission
- » Fast Evaporating: Minimal delay before continuing with job

Mfr. Model #	Description	Units/Case	BSE Part #
FO-1	Type FO™ Isopropyl Alcohol Prep Wipe	50	1408970
FO-128	1-Gal Type FO™ Isopropyl Alcohol Fiber Cleaner	4	2321864
FO-16	16-Oz Type FO™ Isopropyl Alcohol Fiber Cleaner	12	1470655
FO-2LP	2-Oz Refillable Spray Type FO™ Isopropyl Alcohol	12	3002896
FO-32	32-Oz Type FO™ Isopropyl Alcohol Fiber Cleaner	12	1470656
FO-8LF	8-Oz Refillable Bottle Type FO™ Isopropyl Alcohol	12	3002897

Fiber Optic SOLUTIONS

QuickKleen™

Fiber endface cleaner.

- » Cleans Fiber End Faces: Minimizes signal loss and maximizes connectivity
- » No Flash Point: Non-hazardous for air shipment
- » Cleans Multi-Mode and single mode: Suitable for all glass fiber, including 1625 nm.
- » No Residue: No streaking ensures complete light transmission
- » Evaporates Quickly: Ready to reinsert or connect immediately after cleaning

Polywater

Mfr. Model #	Description	Units/Case	BSE Part #
QC-2LP	2-Oz QuickKleen™ Type QC Finger Sprayer	12	3002902
QC-KIT2	QuickKleen™ Type QC Kit w/2-oz Finger Sprayer	8	3002903

SqueekyKleen™

Fiber and copper gel filled cable cleaner.

- » Effective Cleaner: Quickly cleans cable filling gel and flooding compounds
- » Cleans IBP Flooding Compound; Good for cleaning coax cable
- » Fast Gel Cleaner: Requires only two wipes and the fiber squeaks and fans
- » No Residue: Nothing left to require a secondary alcohol wipe
- » Industry Tested: Approved by users and manufacturers

Polywater

Mfr. Model #	Description	Units/Case	BSE Part #
TC-640	5-Gal SqueekyKleen™ Telcom Cleaner	1	3002846

Connectors & CONNECTOR KITS

FASTConnect® Field-Installable Connectors

- » Pre-polished, field-installable connectors completely eliminate the need for hand polishing in the field
- » Proven mechanical splice technology ensuring precision fiber alignment, a factory pre-cleaved fiber stub and a proprietary index-matching gel combine to offer an immediate low loss termination to either single-mode or multimode optical fibers
- » No epoxy, no polish connector
- » Fiber can be reinserted up to three times
- » VFI accessory to confirm proper installation

FUSEConnect® Splice-on Connectors

The factory pre-polished ferrule eliminates the need for polishing, adhesives and crimping in the field, utilizes a fusion splicer to terminate the connector in the field, addressing the loss concerns present in analog optical networks.

- » Field installable
- » No adhesives, crimping or polishing
- » True APC performance
- » Heat sleeve style splice protector design
- » Compatible with Fujikura fusion splicers and most fiber holder-based fusion splicing platforms
- » FUSEConnect MPO utilizes RT-02 ribbonizing tool for glueless ribbon termination

Fiber Optic SOLUTIONS

CONSUMABLES

Splice Protection Sleeves

- » Heat shrinkable protection sleeves for a variety of fiber counts
- » Various length and size options for different application needs
- » Stainless steel strength member for single fiber sleeves and Quartz for ribbon sleeves

Mfr. Model #	Description	BSE Part #
S003027	FP-5 — 12 Fiber Ribbon Splice Protection Sleeve	3446102
S015915	FP-60 — 60mm Single Fiber Protection Sleeve	3486700
S015916	FP-40 — 40mm Single Fiber Protection Sleeve	3507713

SMOUV Splice Protectors

- » Provide mechanical and environmental protection
- » Optimal design for simple and correct fiber balance
- » Hot melt adhesive specially developed for optimal flow
- » Transparent heat shrink tube for simple installation verification
- » Short installation cycle
- » Compatible with most common ovens

Mfr. Model #	Description	Length	BSE Part #
369305-000	SMOUV-1120-01, Splice Sleeve	61 mm (2.402 in)	Call
757849-000	SMOUV-1120-R2/12-02, Splice Sleeve	42 mm (1.654 in)	2716367

Fiber Optic Splice Sleeve 2170

- » Transparent plastic tube and stainless steel rod designed to help prevent stress and protect fusion fiber optic splices in field and factory operations

Mfr. Model #	Size	Package	BSE Part #
80610281380	3.0 x 60 mm	50 Each	167349

Fiber Optic TOOLS

CT50 Fiber Cleaver

Speed, simplicity, and hassle-free maintenance in a fiber cleaver.

- » Bluetooth communication with splicer for blade-life tracking
- » Automated scrap collector
- » Field replaceable blade and cleaver pads
- » Motorized blade rotations and thumb-wheel height changes
- » Shock resistant up to 30" and 6 drop orientations

Mfr. Model #	Description	BSE Part #
S017030	CT50 Fiber Cleaver	3507747

Ribbonizing and Termination Tools

Quickly form temporary ribbons for mass fusion splicing.

- » Traditional ribbonizing of 250µm fibers with adhesive using the FAT-04
- » Glue-less ribbonizing with RT-02 for 200µm and 250µm fibers

Mfr. Model #	Description	BSE Part #
S017465	RT-02 Ribbonizing Tool	3535148
S010212	FAT-04 Fiber Arrangement Tool	3440805

FAT-04 Ribbonizing Tool Consumables

- » 0.5L of Ribbonizing adhesive
- » 4oz. of Ribbonizing adhesive
- » Sponges for adhesive absorption for FAT-04
- » Paste applicator block for FAT-04

Mfr. Model #	Description	BSE Part #
S008622	FAA-03 0.5L	3507567
S008720	FAA-03 4oz.	3440806
S009016	SP-1 Sponges	3453567
S010952	PAB-01 Applicator Block	3507575

Splicing Equipment Cleaning Supplies

- » V-groove cleaning kit for any splicer, but necessary for fixed V-grooves such as mass fusion splicers
- » V-groove cleaning brush
- » V-groove cleaning kit refill

Mfr. Model #	Description	BSE Part #
S014397	V-groove Cleaning Kit	3408844
S016416	VCB-01 Brush	3507724

Fiber Optic Drop Cable Slitters

FOD-2000

Open cable jackets, mid-span or end run. Choose FOD-2000 for flat drop cable or FOR-3000 for round cable.

- » Slits 0.250" flat drop cables as well as various other cables such as Super Essex Communications Series 6U, 6T tonable, W7, W7 tonable, 6U 24F, and 6T 24F tonable flat drop cables
- » Slits flat cables 0.305" to 0.350" wide and 0.155" to 0.185" high, typically found in Corning SST-Drop flat cables with a jacket thickness of 0.03" to 0.04"
- » Slits both sides of the jacket simultaneously, allowing easy access to fiber or strength members
- » Can separate the jacket and strength members from the buffer tube leaving fiber undamaged
- » Two reversible blades come preassembled and can be reversed when worn for double life

FOR3000

Opens open round fiber optic cable jackets from 9 mm to 19 mm in diameter. Slits cables with outer diameter from 9 mm to 19 mm.

- » Provides easy fiber access for both mid span and end of cables
- » Ability to slit and ring all in one tool
- » Works on light armored cables also
- » Blade is easily replaceable with replacement blade: FOR-3000RB

FOR-3000	Fiber Optic Round Cable Slitter	3512781	FOR-3000RB	3512782

Fiber Drop Cable Stripper

Designed to strip FTTH drop cables sized 3.1 mm by 2.0 mm, this drop cable stripper strips the outer jacket of drop cables and cuts the strength members to expose the fiber inside.

- » Works on cables with FRP or steel strength members
- » Removes the outer jacket without damaging or nicking the fiber
- » Non-slip ergonomic handle helps prevent hand grip fatigue
- » Fiber support is scaled to help determine strip length

Mfr. Model #	Description	BSE Part #
FDS-312	Fiber Drop Cable Stripper	3512778

Duct Cutters

Designed to create quick, clean, and straight cuts in fiber ducts made from PVC, CPVC, HDPE, and other plastic tubing. Both models feature triangular blade that delivers square and straight cuts by holding the tubing in place, and safety lock.

Microduct Cutter

- » Cuts up to 28mm dia.
- » Spring-loaded jaws make it quick and easy to use
- » Carbon steel blade with black oxide finish is durable and easily replaceable
- » Molded ribbed grips for comfort and secure holding

Large Fiber Duct Cutter

- » Cuts up to 64mm
- » Ratcheting design provides high amount of leverage to facilitate cutting with minimal effort
- » Comfortable one-handed operation with included easy open release
- » Die cast aluminum alloy body and stainless steel cutting blade provide long life and durability
- » Blades can be sharpened to maintain cutting performance using our KSS-1 Knife Scissor Sharpener

Strippers and Tube Ringers

- » JIC-125 strips 250µm buffer coating to expose the 125µm optical fiber in fiber optic cables without damaging the fiber
- » JIC-375 Three Hole Fiber Optic Stripper strips the 1.6 mm-3.0 mm fiber cable jacket, 600-900 micron buffer coating, and 250 micron acrylate coating to expose the 125 micron glass fiber
- » BTR-6 provides quick access to fibers inside buffer tubes up to 6 mm in diameter and works with wall thickness up to 1mm

Mfr. Model #	Description	BSE Part #
JIC-125	Fiber Optic Stripper	3318415
JIC-375	Fiber Optic Stripper, Three Hole	2403640
BTR-6	Buffer Tube Ringer	3512775

Fiber Connector Tool for LC, SC Connectors

- » Designed for use on LC and SC simplex and duplex connectors, this tool is perfect for inserting and extracting fiber optic connectors in high density patch panels
- » Bent nose jaws can be used to insert or remove simplex or duplex LC and SC connectors
- » Works with LC and SC simplex and duplex connectors as well as with MU, MT-RJ, and other similar type connectors
- » Spring-loaded design with dual component thermoplastic rubber TPR grips for maximum comfort and control
- » Rubber protected jaws safely secure and grip connectors without damaging them

Mfr. Model #	Description	Size	BSE Part #
FCT-100	Fiber Connector Tool for LC, SC Connectors	10.6" (269.2 mm)	3545825

Fluid Dispenser for Fiber Cleaning 220mL

- » Holds up to 220 mL of isopropyl alcohol or other cleaning fluids
- » Twist-lock pump can be locked/unlocked with a simple twist
- » Spill-proof lid holds fluid securely, preventing waste from spills and leaks
- » Easy-to-use pump delivers a controllable amount of fluid with each press

Mfr. Model #	Description	BSE Part #
FD-220	Fluid Dispenser for Fiber Cleaning 220mL	3545828

Fiber Scraps Disposal Can

- » Allows safe disposal of cleaved fiber ends
- » Twist lock cover locks scraps in the disposal can for safe and easy disposal
- » Disposal can has a 2 oz capacity with a paperboard body and plastic top and bottom
- » Lightweight design to accommodate any tool kit or splice/connector station

Mfr. Model #	Description	BSE Part #
FDC-66	Fiber Scraps Disposal Can	3545827

QuickSleever™

- » Designed to make loading protection sleeves onto fiber quick and easy, the PSI-15 QuickSleever tool is ideal for aligning fiber to the holes of protection sleeves
- » Conical fiber feed surface guides fiber directly to protection sleeve (patent pending)
- » Facilitates fiber loading by providing a guide for the fiber to load right into the protection sleeve
- » Holds up to 15 protection sleeves, each ranging from 1.57" to 2.36" (40 mm to 60 mm) long
- » When one sleeve is loaded and removed, another automatically falls into place

Mfr. Model #	Description	Size	BSE Part #
PSI-15	QuickSleever™	2.6"	3545824

Round Cable Strip and Ring Tool

Designed for fast and precise removal of cable jackets from round cables that are 3/16" to 1-1/8" (4.5 mm-29 mm) in diameter.

- » Patented stripping mechanism provides a "spiral stripping mode" to strip and remove tough insulations
- » Can cut through a variety of jacket materials such as PVC, rubber, PE, and many more
- » Triple action design as it can make longitudinal cuts for end stripping, spiral cuts for end and mid span stripping, and circular cuts for jacket removal
- » Spring-loaded blade can be rotated 90 degrees for versatile slitting and can be adjusted for multiple round cable sizes from 3/16" to 1-1/8" (4.5 mm-29 mm) in diameter
- » Replacement blade is available (part #: CST-7915)

Mfr. Model #	Description	BSE Part #	Repl Blade Mfr. Model #	Repl Blade BSE Part #

Did you know Border States also offers a large selection of **BATTERY OPERATED POWER TOOLS?**

Ratcheting Duct & Cable Slitter

Perfect tool for slitting and ringing cables or ducts greater than 25 mm in diameter. Unique blade penetrates duct walls up to 5 mm thick, allowing you to make mid-span window cuts in cables and ducts.

- » Fixed jaws and ratcheting feature make it easy to grip and slit heavy-duty cable & cut into ducts at midspan
- » Slits and rings cable made of PVC, PE, rubber, and other jacket materials
- » Replaceable double-ended blade has an adjustable cutting depth of 0 to 5 mm (0" to 0.20")
- » 10 mm, 20 mm, 30 mm ruler marked on tool for accurate and precise slitting lengths
- » Perfect for mid-span or end cable slitting and ringing

Fiber Optic SOLUTIONS

Fusion EQUIPMENT

Fujikura Fusion Splicers

- » Family of splicers managing cleaver maintenance and upkeep tasks
- » Broad range of applications from long-haul network installation to access network repair, and from field fiber terminations to optical module assembly
- » Ruggedized for shock, vibration, moisture, and dust resistance to handle strenuous field conditions
- » Long battery, electrode, and blade lives for extended field use without downtime

Fujikura 41S

- » Active Cladding alignment for operator ease-of-use
- » Cleaver management and tracking with wireless communication
- » Warm Splice Imaging for enhanced loss estimation accuracy

Fujikura 90R

- » Replaceable V-grooves for application versatility and splicer up-time
- » Increased splice speed with automated wind protector, tube heater, and splice start
- » Universal operation for 200 μ m & 250 μ m Spider Web Ribbon

Fujikura 90S

- » Highest level of automated features to include sheath clamps
- » Loose and tight buffer fiber with same sheath clamp
- » Broadest range of application capabilities of any field splicer type

Fiber Interface Terminal

Compact NEMA rated enclosure for extending PON networks — works as a lower count splitter hub.

- » Configurable to customer requirements
- » Scale up build by adding modules
- » Plug and play sensibility

Mfr. Model #	Description	BSE Part #
CFIT-FC12A2PF01	CFIT-Flex Compact, 12 Ports, SC/APC, 2 Splice Trays, Single Medium 1.00" Conduit Fitting, 12 Grommets (5mm dia. cables), Swing-Out Bulkhead	3399860

WaveSmart® Premium Ruggedized Splitters

Addresses environmental and human handling issues that other standard splitters cannot combat — with improved fiber protection, management and maintenance in OSP FTTx deployments.

- » Terminations are designed and tested to Telcordia GR-326
- » 100% performance tested for insertion loss, return loss and final mechanical inspection
- » Optical component configuration uses devices that are compliant to Telcordia GR 1221/1209
- » Ruggedized jacket material of input and output legs provide superior flexibility in temperatures ranging from -55°C to 85°C (-67°F to 185°F)
- » Splitters legs come preloaded in staging plate for easy access and turn-up
- » Fiber separators every 17" (431.8mm) to easily recognize and prevent twisting of fiber legs
- » Each leg is 51" (1295.4mm) long and able to reach any port
- » Red boot on input leg
- » Splitter package supports one 1 x 32, two 1 x 16 or four 1 x 8 configurations without penalty in real estate or port counts
- » Red boot on input leg

Splice Cases & **TERMINALS**

FOSC 450 Fiber Optic Splice Closures

FOSC 450 fiber optic splice closures are a family of single-ended closures designed for use most anywhere there are fiber splicing and storage needs.

- » Re-usable compressed gel cable sealing components that accommodate a wide range of cable sizes
- » Capability to accommodate a variety of cable styles including loose tube or central core tube cables with single or ribbon fibers
- » Hinging splicing trays that provide controlled access to splices and slack storage
- » Splice and storage compartments accessible via a removable dome-clamp system
- » Thermoplastic outer materials that withstand temperature and contaminate extremes
- » Slack storage baskets of various sizes that provide different slack storage scenarios
- » Many shared components between closure sizes
- » A range of accessories for a variety of outside plant needs
- » With valve for flash testing

Gator 12F Fiber Optic Splice Closure

Flat Drop Splice/Repair.

- » Designed for splicing two loose tube "flat drop" style cables of 1 to 12 fibers in above grade, below grade, and direct buried applications
- » Uses gel sealing technology to create a sealed closure system that will fit into confined areas such as small "flowerpot" style handholes
- » Incorporates unique cable hold down and strength member termination features and is capable of holding either fusion or mechanical splices
- » Tone wires can also be terminated outside of the closure using the included hardware
- » Re-enterable
- » Black
- » Wall mount

FIBRbox Splice Enclosure

FIBRBox splice enclosures offer CommScope's proven fiber splice management and organizing performance in a rugged enclosure designed for today's FTTX applications.

- » Mounts in pedestals, on a wall, or on a pole (can be used in most 8, 10 or 12 inch pedestals)
- » Overall dimensions (not including bus bar and mounting tabs): Standard (10", 12" pedestals) 18.3" x 8.6" x 4.2" (H x W x D), Narrow (8" pedestals) 18.3" x 6.3" x 4.2"
- » Accommodates up to 4 CommScope FOSC splice trays or OC splitters for distributed PON solutions on standard design, and 5 FOSC splice trays on narrow design
- » A variety of adapter brackets are sold separately

Fiber Optic Splice Closure 2178

- » Provides secure protection for a broad range of fiber cables
- » Engineered to meet common needs and field conditions, with different sizes to accommodate varying splice counts, ideal for wide varieties of applications

CORNING

Mfr. Model #	Size	BSE Part #
80611486525	2178-LS Splice Closure	167759
80611486608	2178-S Splice Closure	167440

80611486749	2178-XSB Splice Closure-B	1995656

Universal Aerial Hanger Bracket Kit

- » Hardware for aerial installation of the 2178-LS family splice closures (S, SL, LS, LL)
- » Kit also accommodates the 2178 splice closure with one or two Cable Addition Kits 2181
- » Contents: four nylon stop nuts, two corner inserts with studs, two universal hanger bracket assemblies

80610859276	2520 Fiber Transition Tubing, 1 ft	50 Each	167742

Fiber Splice Organizer Tray 2532

- » Tray is stackable and accommodates 24 single and 72 mass fusion splices
- » 3.0 x 60 mm single fusion heat-shrink sleeve required (Fiber Optic Splice Sleeve 2170 or equivalent)

CORNING

Mfr. Model #	Description	Package	BSE Part #
80611304801	2532 Fiber Splice Organizer Tray	2 Each	1995658

Fiber Splice Organizer Trays

- » 2522 tray stores and protects single and mass, mechanical, and fusion splices
- » The 2523 tray stores and protects discrete and mass, mechanical, and fusion splices
- » 2521 family splice inserts are easily added to secure splices into the trays. Fibers are routed into the trays using Transition Tubing 2520 that zips over the fibers
- » 2522 tray holds two 2521 family splice inserts (Splice inserts must be ordered separately)
- » 2523 tray holds four 2521 family splice inserts (Splice inserts must be ordered separately)

Fibrlok® Splice Organizer Tray 2524

- » Holds 24 Fibrlok Splices and eight buffer tubes.
- » Fibrlok Splice Organizer Tray 2524 holds 24 Fibrlok splices
- » Tray can be adapted for fusion splice storage using the 2524F tray insert. Buffer tubes are secured with channel snaps so that cable ties are not required. The fibers all enter the tray in one corner, eliminating the need for figure 8's in the fiber.
- » Stackable trays feature snap-on hinge cover on each tray
- » Individual trays may be accessed without disassembly of the trays above or below — and without kinking buffer tubes

CORNING

COYOTE® STP

Small-scale, cost-effective closure which provides an alternative to traditional network interface devices, while offering much greater applications flexibility.

- » Dimensions: 10.1" x 5.0" x 1.9" (257 x 126 x 49 mm)
- » Max splice capacity: 12 single fusion, 4 mechanical
- » Max adapter quantity: 2 simplex SC or 2 duplex LC
- » Grommet quantity: 2 (multi-hole grommets available)
- » Grommet cable diameter range: 0.100"–0.425" (2.5–10.8 mm) and flat drop cable
- » Applications: indoor/outdoor premises, pedestal, wall/pole network interface device (NID)
- » Designed and tested in accordance to Telcordia® GR-771-CORE Above Grade, IP-67 Rated Requirements
- » Constructed out of rugged UV-stabilized, flame-retardant material (UL94-5VA Rated)
- » Robust latch system and intergrated over-molded cover creates a secure seal and provides quick re-entry into the closure
- » Removable splice platform allows splicing and connections to be made outside of the closure

Fiber Optic SOLUTIONS

COYOTE® DTC6 & DTC8

- » Designed and tested in accordance to Telcordia® GR-771-CORE Buried, Underground, IP-68 Rated Requirements
- » Constructed out of rugged UV-stabilized, flame-retardant material (UL94-5VA Rated)
- » Hinged cover with integrated over-mold creates a secure seal and provides quick re-entry and re-use

DTC6

- » Offers a durable, compact solution with multiple internal fiber organizers to support your current and future needs
- » Dimensions: 10.8" x 7.8" x 3.2" (274 x 198 x 82 mm)
- » Max splice capacity: 24 single fusion
- » Max adapter quantity: 4 dual SC or 4 quad LC
- » Grommet quantity: 6 (multi-hole grommets available)
- » Grommet cable diameter range: large grommets = 0.118"–0.60" (3–15 mm), small grommets = 0.093"–0.420" (2.4–10.7 mm) and flat drop
- » Applications: direct bury, below grade, pole/wall mount, pedestal, aerial, or interior applications

DTC8

- » Largest member of the DTC family — provides the ultimate level of application flexibility for fiber drop distribution applications
- » Dimensions: 12" x 8.8" x 3.5" (305 x 224 x 89 mm)
- » Max splice capacity: 48 single fusion
- » Max adapter quantity: 4 duplex SC or 4 quad LC
- » Grommet quantity: 8 (multi-hole grommets available)
- » Grommet cable diameter range: large grommets = 0.093"–0.550" (2.4–14.0 mm) and flat drop cable, small grommets = 0.093"–0.420" (2.4–10.7 mm) and flat drop cable
- » Applications: direct bury, below grade, pole/wall mount, aerial, or pedestal

COYOTE® In-Line RUNT

Closure has the versatility to be used in both distribution and fiber-to-the-premise (FTTP) networks for in-line or butt applications.

- » Dimensions: 18.7" x 10.0" x 3.7"
- » Internal organizer manages buffer tube or ribbon
- » Multiple splice tray designs support mass fusion splicing, single fusion splicing, or a combination of both
- » Splice capacity (Max): 96 - Single Fusion using 80809958, 144 - Single Fusion using 80813152, 80 - Single Fusion using 80808945, 288 Mass Fusion using LGSTR144
- » Flexible grommet sealing technology supports a wide range of flat and round cable profiles
- » Factory-installed gasket allows re-entry and re-use
- » Designed and tested in accordance to Telcordia® GR-771-CORE Buried, Underground, IP-68 Rated Requirements
- » Flame-retardant kits available

Fiber Optic SOLUTIONS

COYOTE® 6.5" Dome Closure

Offers two length options of 17" and 22" to support either buffer tube or ribbon fiber applications.

- » 4-Port segmented end plate design provides independent access to each cable port without disrupting surrounding cables
- » Tray design allows the removal from the stack to enable multiple splicers to work simultaneously
- » Multiple tray designs support mass fusion splicing, single fusion splicing, or a combination of both
- » Flexible grommet sealing technology supports a wide range of flat and round cable profiles
- » Cable diameters: 0.093"–1.25" and flat drop
- » Ground studs: 4
- » Flame-retardant kits available
- » Designed and tested in accordance to Telcordia® GR-771-CORE Buried, Underground, IP-68 Rated Requirements

Fiber Optic SOLUTIONS

COYOTE® HD (High-Density) Dome Closure

Offers an alternative fiber organizer to support high-density splice applications within the same footprint as PLP's existing 9.5" x 28" COYOTE Dome Closure.

- » Dimensions: 13.3" x 29.4"
- » Maximum Splice Capacity of 1728 or 3456 depending on cable construction
- » 7-Port segmented end plate design provides independent access to each cable port without disrupting surrounding cables
- » Two splice tray designs to support mass fusion splicing, single fusion, or a combination of both
- » Modular tray design permits trays to hinge upward or be removed from the stack to allow multiple splicers to work simultaneously
- » Grommet range now accepts fiber optic cable entry of up to 1.38" in diameter
- » Cable diameters: 0.093"–1.25" and flat drop
- » Ground studs: 7
- » Designed and tested in accordance to Telcordia® GR-771-CORE Buried, Underground, IP-68 Rated Requirement

On the ROAD

Test out the newest products and technology right where you work with our MRO demo fleet. The demo fleet is available to showcase new product demonstrations and provide on-site training.

Loaded with the latest MRO and safety products and solutions from the industry's leading manufacturers, we come to you for:

- » Safety meetings
- » Trade shows
- » Tool training
- » Lunch 'n learns

We go where the action is—invite us to your next event.

FREE UPDATES

For great deals on MRO and safety products, talk to your Account Manager to sign up for our monthly Hot Buys email.

For the latest information about the construction, industrial and utility industries, sign up for our weekly blog updates at:

COYOTE® MPC

- » Interior grid hole pattern allows custom organization of various components
- » Offers NEMA4 performance
- » Constructed with UL94-5VA rated polymer compounds, to provide the highest flame resistant rating
- » Flexible grommet sealing technology supports a wide range of flat and round cable profiles
- » Integrated silicone foam rubber gasket designed to eliminate water entry
- » 8 cable entrance ports around closure exterior

COYOTE® Silicone Grommets

- » Multi-hole designs available to cover cable diameter ranges from 0.093"—1.25" (2.4–31.8 mm)
- » Multi-hole designs allow for increased cable or drop capacity without the need to buy additional cable sealing and restraint kits
- » Silicone grommet can be slit per the application procedure to accommodate terminated or expressed cables
- » Eliminates the need for scuffing, adhesives, sealing tapes, or cure times
- » Can be used across the COYOTE Fiber Optic Closure product line including the COYOTE LCC, In-Line RUNT, ONE, 6.5" and 9.5" Domes, Terminals, Terminal Domes, and GLC
- » Designed and tested in accordance to Telecordia® GR-771-CORE, Buried, Underground; field proven since 2005
- » COYOTE Silicone Grommet Kits include: (1) Grommet, (1) Cable Measure Tape, (1) Silicone Lubricant Pack, and Plugs (where applicable)

Fiber Optic SOLUTIONS

Fiber Aerial Solution

Simple cost effective solutions for mid span splice or drops in PON networks.

- » Strand mount
- » Hinged splice tray
- » Robust and sturdy

Mfr. Model #	Description	BSE Part #
CFAS-SPL01	Fiber Aerial Splice Closure Splice Configuration, No Adapter Panel, One 4" x 6" Drop Splice 24 Fiber Splice Tray, Includes Aerial Mounting Brackets	3396783

Fiber Transition Terminal

Flexible solution for NID applications are for use as a fiber backhaul connection at cell sites.

- » Compact
- » Sturdy
- » Configurable to your requirements

Mfr. Model #	Description	BSE Part #
CFTT4-1SCAX	1 Port, SC/APC Adapter Type	3400602

FieldSmart® Fiber Crossover Multi-Purpose (FxMP) Patch and Splice Panels

Provides an interconnect or cross-connect environment for up to 288 SC ports or 576 LC ports of high-density fiber for inside plant environments and outside FDH deployments.

- » Panels are fully certified to Telcordia GR-63 and GR-1089
- » Fiber cable is certified to GR-20 and GR-409
- » Terminations are designed and tested to Telcordia GR-326
- » Supports all industry standard singlemode and multimode connectors
- » Front cover is easily removable and installation of cassettes is simple with no tools needed
- » Front access to pre-terminated assemblies with removable adapter plates for testing, cleaning and maintenance
- » The entire 12-fiber Clearview Cassette is removable for hot-swap changes
- » New larger designation cards provide greater writing area for standard and high-density panels
- » Reversible mounting ears provide added flexibility

Mfr. Model #	Description	BSE Part #
FxMP Panel — In-Cassette Splicing (Patch and Splice), No Connectors, No Fiber, 19"/23" EIA or WEKO Rack Mounting, Almond Color		
G-JBA-000-Z0Z-BZZ	2-Cassette Capacity, 24–48 Ports, 3.25" Rods, 19"W x 16.8"D x 1.75"H (1 RU)	3547820
G-EBB-000-Z0Z-AZZ	6-Cassette Capacity, 72–144 Ports, 4.77" Rods, Clearview Blue Cassette(s), Front and Rear Protection, Slack Basket, 19"W x 16.8"D x 3.5"H (2 RU)	3489548
G-KBB-000-Z0Z-AZZ	8-Cassette Capacity, 96–192 Ports, 4.77" Rods, Clearview Blue Cassette(s), Front and Rear Protection, Slack Basket, 19"W x 16.8"D x 4"H	3547821
FieldSmart Small Count Delivery Panel, No Connectors, 19"/23" EIA or WEKO Rack Mounting, Almond Color		
SCD-X1RU-RM	2 Slots (xPAK and Clearview Cassette Compatible), 24–48 Ports, 21"W x 13.8"D x 1.75"H (1 RU)	2841975

Panels are also available in other sizes and configurations — contact your BSE representative for details.

Clearview® Blue Cassettes

Delivering the most scalable fiber management platform in the industry, Clearfield ensures your investment in capital equipment grows alongside your take rates. The key to this promise: Clearview® Blue, Clearview Black and the Clearview xPAK — the central building blocks of every element of the FieldSmart® product portfolio.

- » Scalable building block to align capital expenditures to customer take rates
- » Modular design allows ports to be configured to user-defined application requirements
- » Patch and splice integrated splice tray removes the need for separate chassis space or a splice enclosure, reducing the required real estate
- » Clearfield® FiberDeep® Guarantee: 0.2 dB insertion loss or less, exceeding industry standards
- » Slack stored, bend-radius protected and secured against accidental physical damage from handling
- » Tight buffer tube/cable entry/exit paths allow the technician a high degree of flexibility in deployment
- » Ability to store 10 feet (3.05m) of exposed buffer tube in the in-cassette buffer tube location
- » Terminations are designed and tested to Telcordia GR-326
- » UL Certifications

Mfr. Model #	Description	BSE Part #
EPZ-012-A1F-SUB	Loose Tube, Loaded with 12 SC/UPC Adapters, Filister Mounting Screws	3319590
EPZ-012-C1F-SUB	Loose Tube, Loaded with 12 SC/APC Adapters, Filister Mounting Screws	3301679
EYZ-012-C1F-SUB	Loose Tube, Loaded with 12 SC/APC Adapters, Universal Mounting Options	3470824
EYZ-012-C2F-SUB	Ribbon Cable, Loaded with 12 SC/APC Adapters, Universal Mounting Options	3475410
EYZ-024-F1F-SUB	Loose Tube, High-Density, Loaded with 24 LC/UPC Adapters, Universal Mounting Options	3492366

Clearview® xPAK Cassettes

Clearview xPAK cassettes provide small port counts and can be deployed as a stand-alone device, or with FieldSmart® Fiber Deliver Point (FDP) products for a wide range of network environments.

- » Terminations are designed and tested to Telcordia GR-326
- » Clearfield® FiberDeep® Guarantee: 0.2 dB insertion loss or less, exceeding industry standards
- » Supports industry-standard SC, LC, ST, FC and MPO/MTP singlemode and multimode connectors
- » Radius-protected storage for up to 1/2 meter of 900 μm jacketed fibers
- » Durable polypropylene construction (impact plastic)
- » Small design facilitates ease of use in crowded environments
- » Front: 4 or 6 SC ports; Rear: 1 SC port or 1 MPO/MTP
- » LGX-compatible flange mount
- » Supports optional component integration, plug-and-play with MPO configurations

Mfr. Model #	Description	BSE Part #
4PAK-SCA	4-Port SC/APC, xPAK Cassette, 900μm, Singlemode, 1m Pigtail, Durable Polypropylene, 4"W x 5.38"D x 1.14"H, with Standard and LG Faceplates	2492307
6PAK-SCA	6-Port SC/APC, xPAK Cassette, 900μm, Singlemode, 1m Pigtail, Durable Polypropylene, 4"W x 5.38"D x 1.14"H, with Standard and LG Faceplates	2599792

Fiber Optic SOLUTIONS

FieldSmart® Fiber Distribution Hub (FDH) PON Cabinets

The complete solution for managing 12- to 864-port distribution fibers for an outside plant FTTx PON application.

- » Terminations are designed, tested and certified to Telcordia GR-326
- » Fiber cable certified to Telcordia GR-20 and GR-409; designed, tested and certified to Telcordia GR-3125
- » Constructed of 0.090" or 0.125" aluminum with almond powder coating
- » Optional 4" and 12" risers can be stacked to raise cabinet if required
- » 12-fiber Clearview® Cassette protects fiber from environmental and human factors
- » Rugged cable clamps protect the OSP cable breakouts from twisting and pistoning
- » Pyramid roof and venting provide additional protection in all environments

Mfr. Model #	Description	BSE Part #
FieldSmart FDH PON Cabinet— Patch Only — Front and Rear Access, for Vault, Pole or Pad Mounting		
R-CB1-144-C1E-0100-M 100F	144-Port Capacity with 12" Riser, Loaded with 144 SC/APC Adapters, 1 x 144 Fiber OSP Non-rated Loose Tube, 100 ft., 12 OSP Feeder Fiber Pigtail in Clearview Blue Cassettes, 0.125" Al, 17.81"W x 18.53"D x 21.62"H	3547822
R-DA2-288-C2E-0200-B 100F	288-Port Capacity with 4" Riser, Loaded with 288 SC/APC Adapters, 2 x 144 Fiber OSP Non-rated Ribbon, 100 ft., 24 OSP Feeder Fiber Pigtail in Clearview Blue Cassettes, 0.90" Al, 18.5"W x 16.98"D x 35.11"H	3547823

Other FDH PON Cabinet sizes and configurations available — contact your BSE representative for details.

FieldSmart® Fiber Deliver Point (FDP) 96-Port PON Pedestal Insert Kit/Vault Mount

Provides splice or interconnect functionality, in industry-standard Channell or Pencil pedestals and vaults, for drops to the home in the last mile of the access network.

- » Provides for a maximum capacity of 96 homes served and is configured for PON environments
- » Terminations are designed and tested to Telcordia GR-326
- » Clearfield® FiberDeep® Guarantee: 0.2 dB insertion loss or less, exceeding industry standards
- » Inserted into RUS pedestals
- » Compliant to Telcordia GR-20
- » Clearview® Cassette for physical fiber protection, bend-radius protection and access
- » Buffer tube slack storage fully bend-radius protected
- » Flood-proof non-metallic pedestals
- » Wrench-accessible design

Mfr. Model #	Description	BSE Part #
J8B-048-C1F-ZZZ-B	96-Port PON Patch and Splice Insert with Pedestal for Pencil Vault Mount, 12 Feeder Ports, 48 Distribution Ports, SC/APC Tight Buffer Clearview Blue Cassettes, 24" x 36" x 24" Vault Included	3312655

Split-lid Pencil vault included (contact your BSE representative for ordering information on an available Channell vault version)

FieldSmart® Fiber Delivery Point (FDP) SCD Wall Boxes

Ideal for any small count fiber scenario, the FieldSmart Small Count Delivery (SCD) Wall Box provides up to 24 fibers in a discrete footprint without sacrificing fiber management.

- » Designed to land small port count fiber terminations and optical components as conveniently and inexpensively as possible
- » Perfectly suited for in-building needs, such as business class demarcations, MDU distribution points and IDF locations in enterprise networks as well as pole-mount applications in outside plant environments
- » Supports industry-standard SC and LC singlemode connectors
- » Dual snap locks to ensure lid seals to base
- » Mounting hole pattern for multiple applications
- » Radius-protected storage for up to 15 feet (4.57m) of buffer tube
- » NEMA 4 rated
- » Gray flame-retardant PVC construction for durability
- » Easy to install with both internal and external mounting holes
- » Two bottom entry/exit points

Mfr. Model #	Description	BSE Part #
FieldSmart® Wall Box for One xPAK Cassette with 3/4" Sealcon Fitting — 8.62"W x 3.91"D x 12.17"H		
FDP-XWB1	Empty (purchase xPAK Cassette separately)	2492308
FDP-XWB1-xPAK-xx	Loaded with One xPAK Cassette (specify number of ports and connector type)	3084354
FieldSmart® Wall Box for Two Clearfield Cassettes with 3/4" Sealcon Fitting — 11.37"W x 4.14"D x 15.24"H		
FDP-XWB2-12-SCA-B	Loaded with One Clearview Blue Cassette Splice Module with 12 SC/APC Connectors	3455284
FDP-XWB2-12-SC-B	Loaded with One Clearview Blue Cassette Splice Module with 12 SC/UPC Connectors	3459625
FDP-XWB2-24-SCA-B	Loaded with Two Clearview Blue Cassette Splice Modules with 12 SC/APC Connectors Each	3459333
FDP-XWB2-24-SC-B	Loaded with Two Clearview Blue Cassette Splice Modules with 12 SC/UPC Connectors Each	3547824

YOURx™ Flex Box

A flexible and scalable solution all within a single wall box.

- » Ideal for cabling MDUs in both existing (brownfield) and new (greenfield) construction
- » Addresses the challenge of how to manage incoming duct while supporting varying number of subscribers in different configurations with slack management while also reducing installation time
- » Accepts Clearview Blue Cassette, Clearview xPAK, FieldShield Drop Wheel or SmartRoute Plate
- » 1" inside mounting hole pattern for multiple applications
- » Dual snap ensures gasket-sealed lid secures to box
- » NEMA 3 rated, gray PVC construction
- » Grounding lug included
- » Top and bottom entry/exit points
- » Slide-in aggregator plates eliminate the need for additional duct organizer

Mfr. Model #	Description	BSE Part #
YOURx FieldSmart Flex Box with Capacity for Up to Four Cassettes — 12"W x 5.38"D x 15.66"H		
FDP-XWBF-BPLATE	Empty with Blank Plate (purchase cassettes separately)	3547825
WQB-012-C1F-CZZ	Loaded with One Clearview Blue Cassette Splice Module with SC/APC Connectors and Combo Plate with 12 10mm Microduct Flex Ports	3547826
WQB-012-A1F-CZZ	Loaded with One Clearview Blue Cassette Splice Module with SC/UPC Connectors and Combo Plate with 12 10mm Microduct Flex Ports	3547827
WQB-024-C1F-CZZ	Loaded with Two Clearview Blue Cassette Splice Modules with SC/APC Connectors and Combo Plate with 12 10mm Microduct Flex Ports	3547828
WQB-024-A1F-CZZ	Loaded with Two Clearview Blue Cassette Splice Modules with SC/UPC Connectors and Combo Plate with 12 10mm Microduct Flex Ports	3547829

Fiber Optic SOLUTIONS

FieldSmart® Fiber Delivery Point (FDP) Indoor Wall Box

Optimized for MDU applications.

- » Configurable with up to 144 distribution ports and 24 feeder ports using Clearview® Cassettes
- » Able to house up to three 1 x 32 splitters
- » Supports PON applications, fiber demarcations, entrance facilities and CCTV security systems
- » Terminations are designed and tested to Telcordia GR-326
- » Clearfield® FiberDeep® Guarantee: 0.2 dB insertion loss or less, exceeding industry standards
- » Designed to comply to Telcordia GR-20 and GR-409
- » Supports all industry-standard singlemode and multimode connectors
- » 100% performance tested for insertion loss, return loss and final mechanical inspection
- » Radius-protected storage for up to 5m of jacketed fiber or patch cord slack is provided (patch side)
- » Rugged steel construction with security-enabled doors provides protection from tampering or inadvertent damage with industry-standard can wrench fasteners
- » Removable doors and non-angled connectors enable fast, easy fiber jumper routing, reducing the risk of fiber damage when cleaning or patching fibers
- » Upper and lower entry/exit points for feeder/customer premise cables

Mfr. Model #	Description	BSE Part #
FieldSmart® Empty Indoor Metal Wall Boxes — Almond Color		
WFB-000-Z0Z-ZZZ	Empty with Blank Plate (purchase cassettes separately)	3547830

Available in other sizes and configurations — contact your BSE rep for more information.

YOURx-Terminal

Improves the customer application and craft experience by providing an access terminal capable of 16 drops, two feeder ports for mid-span and daisy-chaining scenarios, along with a fully protected and restorable pathway from the YOURx-Terminal to the YOURx-TAP using the Clearfield® design methodology of a modular and flexible approach that scales across the application environment.

- » Designed to comply to Telcordia GR-771
- » Supports FieldShield Pushable/Pullable SC Connectors for drop applications
- » Supports pre-terminated FieldShield FLATdrop, FieldShield FLEXdrop, FieldShield StrongFiber or FieldShield Pushable Fiber assemblies for individual drop applications
- » 100% performance tested for insertion loss, return loss and final mechanical inspection
- » Designed using black UV-resistant thermoplastic material
- » Environmentally sealed terminal providing maximum reliability and durability in the harshest OSP environments
- » FieldShield FlexConnector provides bend-limiting, strain-relief protection and water-tight seal for FieldShield Cables
- » Compact sealed design allows placement above or below grade

Mfr. Model #	Description	BSE Part #
YOURx-Terminal with 4 SC/APC Drop Ports — 7.14"W x 6.74"D x 7.31"H		
FSTX-04C-51Z-ZAZ	12 ft. MPO Male Feeder	3547832
FSTX-04C-Z1M-ZZZ-0025F	Patch Only, 25 ft. OSP Armored SM Feeder	3547837
FSTX-04C-Z1T-ZZZ-0025F	Patch Only, 25 ft. Flat Drop SM Feeder	3547839
FSTX-04C-Z1W-ZZZ-0025F	Patch Only, 25 ft. Pushable FieldShield SM Feeder	3547841

Available in other sizes and configurations — contact your BSE representative for information.

YOURx™ YOURx-Aerial Terminal

When the network deployment plan calls out for an aerial application, Clearfield's YOURx-Aerial Terminal application allows for the flexibility to terminate a feeder fiber directly into revenue-generating drops and has the capability to accommodate a fiber cable mid-span, allowing cables to be fully utilized while feeding multiple terminals and access points.

- » Compliant to Telcordia GR-771
- » Supports FieldShield Pushable Duct and pushable/pullable fiber solution with SC connectors for drop applications
- » Supports pre-terminated FieldShield FLATdrop cable assemblies for individual drop applications
- » 100% performance tested for insertion loss, return loss and final mechanical inspection
- » Black UV-resistant thermoplastic designed to resist corrosion
- » Free-breathing terminal provides durability and protection in OSP environments
- » Four side entrance holes accept multiple cable types — up to 144 fiber count — not to exceed 3/4" (19.05mm) O.D.
- » Two secure compartments, separate splices from the drop ports, providing network security

Mfr. Model #	Description	BSE Part #
YOURx-Aerial Terminal with SC/APC Connectors for Drop Ports and 10mm FlexPorts for Distribution — 14.80"W x 8.15"D x 11.61"H		
AFT-06C-Z1F-Z1Z	6 Drop Ports and 6 Distribution Ports	3547861
AFT-12C-Z1F-Z1Z	12 Drop Ports and 12 Distribution Ports	3547862
AFT-24C-Z1F-Z1Z	24 Drop Ports and 24 Distribution Ports	3547863

CraftSmart Fiber Test Access Point (TAP) Box

Gives the service provider an accessible exterior access point to test fiber integrity before it enters the customer premise, offering the ability to identify potential issues in conductivity from outside the customer premise location.

- » Fiber terminations are Telcordia and RUS compliant
- » Supports industry standard SC/APC, SC/UPC, LC/APC or LC/UPC connectors
- » Overlapping cover seals unit from environmental elements
- » Two rubber grommets provide sealing of feeder and drop cables
- » Enclosure made of high-impact UV resistant thermal plastic material - to resist and withstand corrosive environments
- » Designed to meet NEMA 3 criteria
- » Integrated fiber management protects fiber from micro and macro damage
- » Special coupler available for use with FieldShield® Microduct
- » Wall and pole mount applications available

Mfr. Model #	Description	BSE Part #
TAP-BBD-1Z-ZZZ	Tap Box Assembly, Patch and Splice with One Duplex SC/APC Adapter Port, 8.57"W x 1.67"D x 7.3"H	3396361

Also available with industry-standard SC/UPC, LC/APC or LC/UPC connectors — contact your BSE representative for details.

Fiber Optic SOLUTIONS

Home Deployment Kit (HDK)

Extends Clearfield's field-proven fiber management expertise and leading-edge fiber connectivity performance all the way into the home.

- » Starting with the Test Access Point (TAP) solution of your choice, the Home Deployment Kit packages the required patch cords, fiber jack (Clearfield's CraftSmart Fiber Outlet) and necessary adapter and splice sleeve installation accessories in a single box.
- » Minimizes truck rolls are minimized and speeds customer turn-up
- » Accepts 10mm microduct and standard flat drop using supplied grommet tap
- » 3mm grommets included for FLEXdrop cable
- » Integrated splice sleeve retainer
- » Supports industry-standard SC adapters
- » Rear exit for direct entrance to premise
- » Access available without customer needing to be there to identify potential problems

Mfr. Model #	Includes	BSE Part #
FieldSmart SCD-TAP Home Deployment Kit — NEMA 4 Plastic Box, Large Format with FLEXdrop Deployment Reel, 8.62"W x 3.91"D x 12.17"H		
HDK-DBCC-CDD6-CCFW1	SC/APC Adapter, 100 ft. Black FLEXdrop Entrance Cable (Standard Simplex SC/APC to Pushable SC/APC), 10 ft. White FLEXdrop Equipment Cable (Standard Simplex SC/APC to Standard SC/APC)	3547933
YOORx-TAP Home Deployment Kit — NEMA 4 Plastic Box, Small Format with FLEXdrop Deployment Reel, 6.25"W x 2.81"D x 7.8"H		
HDK-AZCC-CDD4-CCFW1	SC/APC Adapter, 50 ft. Black FLEXdrop Entrance Cable (Standard Simplex SC/APC to Pushable SC/APC), 10 ft. White FLEXdrop Equipment Cable (Standard Simplex SC/APC to Standard SC/APC)	3547934
CraftSmart TAP-Flex Home Deployment Kit — NEMA 3S Plastic Box, Coil-Style, 10.35"W x 1.5"D x 5.12"H		
HDK-CZCC-CDF3-CCFW1	SC/APC Adapter, 25 ft. Black FLEXdrop Entrance Cable (Standard Simplex SC/APC to Pushable SC/APC), 10 ft. White FLEXdrop Equipment Cable (Standard Simplex SC/APC to Standard SC/APC), Fiber Outlet Box	3547935
CraftSmart TAP-Base Home Deployment Kit — NEMA 4 Plastic Box, Splice-Style, 6.3"W x 1.1"D x 3.5"H		
HDK-BZCC-CDF3-CCFW2	SC/APC Adapter, 25 ft. Black FLEXdrop Entrance Cable (Standard Simplex SC/APC to Pushable SC/APC), 15 ft. White FLEXdrop Equipment Cable (Standard Simplex SC/APC to Standard SC/APC), 1m Simplex Singlemode 900µm Cable (Standard SC/APC to Pigtail)	3547936

FL2000 Fiber Splice Panels & Accessories

- » This product family is a complete line of modular panels developed for rack and wall mounting. The system is fully adaptable to small distribution frames, telephone closet (TC) applications, or active equipment racks
- » FL2000 panels are designed for both 19- and 23-inch EIA rack or cabinet environments. FL2000 products provide termination, splicing and storage capabilities for in-building cables, outside plant cables and fiber optic terminal (FOT) equipment
- » FL2000's modular design offers maximum flexibility to satisfy current needs and future growth requirements. A full line of options and accessories ensures compatibility with existing optical equipment. FL2000 panels accommodate value wadded module (VAM) plug-ins, adding flexibility and functionality to the optical transport system. Splitters, wavelength division multiplexers (WDMs) and other optical components can easily be incorporated

Test & INSPECTION

FOCIS Flex Fiber Optic Connector Inspection System

A top choice of technicians installing and troubleshooting optical networks.

- » 1-button to auto-focus, center, capture, analyze, and save
- » IEC, IPC, and user-defined pass/fail analysis
- » Untethered, compact, hand-held inspection
- » Use independently or pair with OTDR

VF14 Visual Fault Identifier

Injects high-powered red-laser light to provide exceptional brightness and range for locating defects in single-mode and multimode fibers.

- » Eye-safe Class 3R visible red laser source, 650 nm
- » Output power of 5.0 mW with 10 km range
- » 2.5mm universal adapter (included) accepts FC, SC, ST, etc. connectors
- » 1.25mm universal adapter (included) accepts LC and MU connectors

Mfr. Model #	Description	BSE Part #
VF14-01-0900PR	VF14 Visual Fault Identifier with 2.5mm and 1.25mm Adapters	3544886

Fiber Optic SOLUTIONS

FlexScan® FS200 Single-mode OTDR

All-in-one solution for detecting, identifying, locating, and resolving single-mode optical network issues. It is designed for both novice and expert technicians working in a range of environments, from FTTH PON to point-to-point networks.

- » Single, dual or triple wavelength single-mode OTDR
- » Flexpress® mode completes OTDR tests in <5 seconds
- » Easy to understand LinkMap® results with pass/fail indications
- » Integrated source, power meter, VFL (visual fault locator)

Mfr. Model #	Description	BSE Part #

OFI-BIPM Optical Fiber Identifier

Easy-to-use tool that determines if a fiber is live, the transmission direction, and the relative core power on standard and bend-insensitive single-mode and multimode fibers.

- » World-class signal detection sensitivity
- » Positive-stop trigger lock for optimum detection
- » Integrated optical power meter
- » 2.4" color touchscreen with backlight

Mfr. Model #	Description	BSE Part #

FTBx-730C - PON FTTx/MDU OTDR Kits

Seamlessly characterize splitters in PON FTTx and MDU applications.

- » Test through high-port-count splitters (up to 1x128)
- » Single-mode port for in-service troubleshooting with in-line 1490/1550 nm power meter
- » iOLM-ready: one-touch multiple acquisitions, with clear GO/NO GO results presented in a straightforward visual format
- » Dynamic range of up to 39 dB
- » EXFO Connect-compatible: automated asset management; data goes through the cloud and into a dynamic database
- » The highest resolution for PON testing and the shortest PON dead zone to find more problems closer to the splitter than any other OTDR
- » Proven superiority in characterizing double-stage splitters and closely spaced events

PPM-350D - Next-Gen PON Power Meter

The first PON-aware™ power meter to automatically detect and test next-gen and legacy PON technologies.

- » Unique PON-aware™ capability automatically detects PON technology in use
- » Compatible with GPON and EPON networks (GPON, EPON, XG-PON, XGS-PON, NG-PON2, 10G-EPON)
- » Supports 10G-capable PON networks
- » Pass-through mode for ONT/ONU verification
- » Smart app to configure, execute and report jobs
- » Compact, rugged and designed to comply with the IP54 enclosure standard
- » Rechargeable battery lasts for up to 8 hours of continuous use

Fiber Optic SOLUTIONS

OX1 Optical Explorer

The OX1 is a fiber optic tester that performs link verification and automated fault tracking in seconds. Empowers frontline technicians to explore further and do more.

- » Patent pending EXFO Advisor 5-star rating scale: qualitative approach to assess fiber links
- » Displays fiber length, loss and optical return loss (ORL) in under 3 seconds
- » Intelligent: no settings required make it an essential for any frontline technician's toolkit
- » On-the-spot detection and location of common causes of failures
- » Built-in power checker and light source
- » Click-out optical connectors and "self-diagnosis" let techs perform maintenance in the field
- » Rechargeable battery for over 10 hours of use on a single charge

MaxTester 940/945 Optical Loss Test Set (OLTS)

First tablet-inspired, multifunction optical loss test set (OLTS) delivering insertion loss, optical return loss and fiber length measurements at two wavelengths in five seconds via fully automated bidirectional FasTest™ analysis.

- » Unmatched FasTest™ performances: 100% automated bidirectional test at two wavelengths under 5 seconds
- » 100% automated fiber inspection: one-step process with pass/fail analysis at both fiber ends
- » On-board assistant and diagnosis to eliminate reference errors
- » Best-in-class singlemode distance range of 200 km
- » On-board professional PDF reporting
- » Bright, 7-inch high resolution touchscreen display — the biggest in the market

FLS-240 Pocket Pal — Visual Fault Locator

A straightforward solution for identifying breaks, bends, faulty connectors or splices, as well as other causes of signal loss. It can detect faults over distances of up to 5 km.

- » Bright red laser at 635 nm
- » Pulsed and CW operation
- » 50 hours of operation (typical)
- » Standard AAA alkaline batteries
- » Rugged and weatherproof
- » 2.5 mm universal connector

OptiFiber Pro HDR Singlemode OTDR V2 Kit, Wi-Fi, 1310/1550/1625 nm

Makes novices into experts and experts faster

- » Multiple wavelengths (850, 1300, 1310, 1490, 1550 and 1625 nm) support LAN, datacenters, PON, FTTx and outside plant applications
- » Automated setup senses fiber characteristics and sets measurement parameters
- » Manual Expert mode allows simple adjustments to automated settings for detailed testing
- » EventMap automatically identifies events including connectors, splices, bends, and splitters
- » Gesture-based interface allows fast, in-depth trace analysis
- » SmartLoop™ OTDR technology tests two fibers in a single test eliminating the need to travel to the far end of the connection to perform tests
- » Instantaneous on-board bi-directional averaging results included as standard
- » Integrates with LinkWare™ Live to manage jobs and testers from any smart device
- » Future-ready Versiv™ design supports copper certification to Category 8, fiber loss and inspection

Simplifiber Singlemode 1310/1550 and 1490/1625 nm Verification Kit

Simple-to-use fiber-loss tester with advanced time-saving features

- » Single-port, simultaneous dual-wavelength feature completes testing in half the time and saves measurements from both wavelengths into one record
- » Additional wavelengths of 1490 and 1625 nm
- » CheckActive™ feature emits an audible tone and displays an icon when a live fiber is detected, eliminating the need to set up a measurement
- » FindFiber™ Remote ID enables one individual to quickly identify cable connections or routings (especially useful at patch panels), eliminating the need for multiple technicians on opposite ends of a fiber link to match color combinations
- » Min/Max capability automates precision tracking of intermittent power fluctuations
- » Large internal memory save 1000 results which enables continuous testing and recording
- » LinkWare Cable Test Management software helps to analyze test results and create professional test reports
- » Various kit configurations for all “first line” fiber handling needs, including fiber verification, inspection, and cleaning – all housed in a professional, rugged carrying case
- » Mag Kit Strap Attachment - Strong rare earth magnet attaches to metal surfaces in the testing environment, allowing the technician to work “hands free”

ASSEMBLIES

Indoor Fiber Patch Cords

Fiber optic patch cords and jumper cables for nearly any application, meeting your requirements for cost, performance, reliability and rapid delivery.

- » Terminations are designed and tested to Telcordia GR-326
- » Clearfield® FiberDeep® Guarantee: 0.2 dB insertion loss or less, exceeding industry standards
- » Supports industry-standard singlemode and multimode connectors
- » Singlemode and multimode and hybrid cables available
- » Wide variety of jacket sizes available for all applications — 3mm, 2mm, 1.6mm, 1.2mm, 900µm
- » Riser- and plenum-rated jacket options available
- » Available in simplex, dual-round and dual zip-cord configurations
- » Industry standard terminations include ST, SC, FC, LC (ask a Clearfield representative for other connector availability)
- » Environmentally stable, low-insertion loss, minimal back reflection

Indoor/Outdoor Fiber Patch Cords

Ideal when splicing FTTH drops in the ONT/NID, remaining flexible even in extreme conditions.

- » Use bend-insensitive fiber to help eliminate bend-radius issues inside the NID
- » Also work well in outside plant cross-connect cabinets
- » Terminations are designed and tested to Telcordia GR-326
- » Clearfield® FiberDeep® Guarantee: 0.2 dB insertion loss or less, exceeding industry standards
- » Supports industry-standard singlemode connectors
- » Singlemode bend-insensitive ITU standard G.657.A glass fiber
- » Uses Ruggedized OSP rated 2mm black jacketed cable
- » Patch cords remain flexible and durable in extreme temperatures of -55°C to 85°C (-67°F to 185°F)
- » Industry-standard terminations include ST, SC, FC, LC
- » Environmentally stable, low-insertion loss, minimal back reflection
- » All assemblies are 100% tested

Also available with singlemode SC/UPC, simplex and duplex LC/UPC and LC/APC connectors, as well as FlexConnector options — contact your BSE representative for details.

Fiber Optic SOLUTIONS

FieldShield® FLEXdrop Assemblies

- » Terminations are designed and tested to Telcordia GR-326
- » UL Listed for plenum applications
- » Smooth wall protective sleeve is easily removed, and outer housing snaps into place
- » Zirconia ceramic ferrule measuring 1.25 mm O.D.
- » Tool-less installation
- » Tech-friendly pre-terminated pushable connectors rapidly decrease deployment times and reduce installation costs by eliminating in-field splicing

Mfr. Model # **Length** **BSE Part #**
FieldShield FLEXdrop Pushable Patch Cord, Singlemode — One 900µm Fiber, 3mm UV-Stable Jacket, I/O Plenum, Standard SC/APC to Pushable SC/APC

Also available with singlemode SC/UPC, simplex LC/UP and LC/APC connectors, as well as FlexConnector options — contact your BSE representative for info.

FieldShield® SC and LC Pushable Assembly Accessories

Designed to simplify the deployment of fiber where one or two fibers are required — provide a tech-friendly field-assembled connector that snaps together in seconds without jeopardizing fiber protection or optical reliability.

- » Greatly reduce installation costs for fiber to the home (FTTH) installations, business class services, cell backhaul or any other small count delivery application
- » Terminations are designed and tested to Telcordia GR-326
- » Smooth wall protective sleeve is easily removed, and outer housing snaps into place
- » Zirconia ceramic ferrule measuring 1.25 mm O.D.
- » Tool-less installation

Mfr. Model #	Description	BSE Part #
FS-H-SCA-02	FieldShield Housing Kit, SC/APC Housing for Pushable Connectors	3396489

Also available for singlemode SC/UPC, simplex LC/UPC and LC/APC connectors — contact your BSE representative for info.

FieldShield® FLATdrop Assemblies

- » FlexConnector is designed and tested to GR-3120 using FieldShield FLATdrop
- » Available in singlemode
- » Supports most industry-standard flat drop cable
- » FlexConnector provides an air-tight, water-tight connection
- » FLATdrop peelable cable allows for the outer jacket to be stripped back to expose the more flexible 3mm sub-unit, easing storage of terminated ends
- » Flat drop cable construction allows for installation in direct bury and aerial applications
- » Toneable cables allow for traceability
- » Leveraging the low cost of a traditional optical flat drop cable with option for plug-and-play field terminations

Mfr. Model # **Length** **BSE Part #**
FieldShield FLATdrop Peel-n-Play Patch Cord, Singlemode — One Fiber, Toneable Flat Cable, Pushable SC/APC, Half-Meter 3mm Breakout to Pushable SC/APC

Cleaning SUPPLIES

SCRUBS® Hand Cleaner Towels

SCRUBS® Hand Cleaner Towels combine an advanced cleaning formula with a strong, dual-textured towel to thoroughly clean hands and surfaces anywhere, anyplace, anytime.

- » Clean, citrus fragrance
- » Advanced cleaning power
- » For use on hands and surfaces
- » No sticky residue

Mfr. Model #	Description	Specifications	BSE Part #
42272	Removes: Dirt, Tar, Oils, Grease, Paints, Adhesives, Epoxies, Caulks, Inks & Dyes, Urethanes, Lubricants, "Icky-PIC", Cable Jelly, Asphalt	NSF International, E4; Boeing D6-17487 Rev. R; Ford Tox #142621; GM FID #305639	1532843

WypAll® X60 Cloths

Pound for pound, WypAll® X60 Cloths absorb more than two times as much water as rags.

- » Absorbent and reinforced to stay strong for cleaning performance in light duty tasks; they absorb water faster than rags
- » Each white commercial paper towel measures 8.34" x 16.8" and dispenses one at a time from the box
- » These lightweight cloths contain no adhesives or binders, yet they hold together and don't leave residues behind
- » To create an effective general purpose industrial cloth, WypAll® combined proprietary HydroKnit fast absorbing technology with reinforced structure, so you get durability at a great value
- » 126 cloths / box, 10 boxes / case, 1,260 cloths / case

HydroKnit Technology

Mfr. Model #	Color	Unit Size	BSE Part #
34790	White	8.34" x 16.8"	148366

MicroMax® NS Non-Skid Shoe Cover

MicroMax® NS provides the protection you need from dirt, grease, grime, light chemical splash.

- » General purpose protection suitable for most Industrial applications
- » Materials: 55 gram SBPP with laminated microporous film
- » Non-skid protection
- » Elastic ankle
- » Economical
- » Lightweight
- » Features high MVTR (Moisture Vapor Transmission Rate)
- » Fabric passes ASTM F1670 and ASTM F1671 for bloodborne pathogens
- » Anti-stat treated per EN 1149

Mfr. Model #	Seam	Shoe Size	Case Size	BSE Part #
901NSP-XL	Serged	10-12	200 Pair/Case	2308354
901NSP-2X	Serged	13-15	200 Pair/Case	3243260

Grime-Away™ Cleaning Wipes

- » Excellent Cleaner: Removes the toughest grimes
- » Approval: Salisbury by Honeywell approved hand cleaning for compatibility with rubber insulating gloves
- » Field Friendly: Easy to store in truck bins
- » Double Sided Towel: Textured on one side for scrubbing and soft on the other side for wiping
- » Moisturize: Softens hands while cleaning tools and surfaces. Will not dry out hands

Mfr. Model #	Description	Units/Case	BSE Part #
HTC-D72	72-Count Grime-Away™ Wipe Canister	6	1435287

Thirsty? Hot or Cold, don't forget to stay hydrated. Contact Border States for **HYDRATION PRODUCTS**

SpliceMaster® DT Dry Towels

Non-linting dry towels for medium voltage cable preparation.

- » Versatile: Use DT towels to apply bulk Polywater cleaners
- » Non-linting: DT towels leave no residue that could lead to tracking
- » Highly absorbent

Mfr. Model #	Description	Units/Case	BSE Part #
DT-1212	100-Count 12" x 12" Dry Towels	1	558220
DT-69	200-Count 6" x 9" Dry Towels	1	165340

Hydrasol® Cable Gel Remover

Water-based cleaner for removing cable filling greases.

- » Fast and Effective: Maximum solvency power on PE/PJ or ETPR greases
- » Clean: Rinses completely with water
- » Less Waste: Good for multiple cleanings
- » Safe: No chlorinated solvent, CFC or glycol ether content
- » Tailored for the Job: Available in a variety of convenient packages

Mfr. Model #	Description	Units/Case	BSE Part #
HS-1	HydraSol®-saturated Wipe	144	165314
HS-32LR	Plastic Qt HydraSol® w/Sprayer	12	165318

HS-D72	72-Count HydraSol® Wipe Canister	6	1950898

SpliceMaster® Sanding Cloth Rolls

Non-conductive sanding cloth for medium and high voltage cable prep.

- » Non-Conductive: SP-ROLL leaves no conductive grit that could lead to tracking or arcing
- » Durable: SP-ROLL resists shredding and helps to evenly pencil semicon layer.
- » Convenient: Snip the SP-ROLL for desired amount. Eliminates waste
- » System Approach: Part of the SpliceMaster® Cleaning System

Mfr. Model #	Description	Units/Case	BSE Part #
SP-ROLL	1" x 50-Yard Roll 120-Grit Sanding Cloth	1	558228

HARDWARE

Superstrut® Half-Slot Channel

SilverGalv® electro-galvanized steel finish for corrosion resistance.

- » 1-5/8" x 1-5/8" industry-standard dimension
- » 12-gauge steel construction
- » 9/16" x 1-1/8" slots on 2" centers
- » 10' lengths

Mfr. Model #	Description	BSE Part #
A1200HS-10-EG	Superstrut Half-Slot Channel, SilverGalv Finish, 10' Lengths	1108749

Steel City® Pipe Straps

Zinc-plated steel construction.

- » One-hole and two-hole styles
- » For use with rigid or intermediate metallic conduit

Mfr. Model #	No. of Holes	Screw Size	Conduit Size	BSE Part #

HWSMS103	10 x 3" Slotted/Phillips Hex Washer Head SMS Zinc	114449

Flat Head Phillips Wood Screws

- » High degree of grip strength on all woods
- » Countersunk head provides flush surface after installation

Mfr. Model #	Description	BSE Part #
PHFW634	#6 x 3/4" Flat Head Phillips Wood Screws Zinc Plated	192464

Zinc Plated Washers

- » Help distribute tightening forces
- » Flat washers prevent loosening due to vibration and act as spacers
- » Fender washers cover oversized holes

Mfr. Model #	Description	BSE Part #
FENW14114	1/4 x 1-1/4 Fender Washers Zinc Plated	112838
FW12	1/2 Flat Washers Zinc Plated	114032
FW14	1/4" Flat Washers Zinc Plated	114021
LW12	1/2" Lock Washers Zinc Plated	114003

Sheet Metal Screw Kit

- » Assorted Hex Washer Head Sheet Metal Screw kit that features six different sizes of #10 screws
- » Sizes range from 1/2" to 2"
- » Used to fasten light metal sheets, wood, and plastic

Mfr. Model #	Description	BSE Part #
10HX	#10 Sheet Metal Screw Kit Hex Head/Slotted	114717

B-Line Series Multi-Grip Pipe Clamps for EMT, Rigid/IMC Conduit or Pipe

Pre-assembled to speed installation.

- » For use with thinwall (EMT), Rigid/IMC conduit or pipe to clamp to strut channel
- » Pre-assembled clamp and hardware for quicker installs
- » Includes combination recess hex head machine screw and square nut
- » Material: ASTM A1011 33,000 PSI min. yield
- » Zinc finish
- » Recommend to use with B-Line series strut
- » UL Listed for U.S. and Canada
- » For UL installations, follow Table 9 in UL2239
- » Safety factor of 5

Pull Line

- » 2-ply, rot- and mildew-resistant line used to pull rope through conduit
- » Can be used with power fishing systems

Mfr. Model #	Description	BSE Part #
6502P	6500' Pull Line Two Ply Dispensing — Pail	112863

Nylon Fishing Line

- » Used to fish cable through conduit
- » Center feed for fast payout
- » Excellent resistance to rot, abrasion, mildew, marine growth, petroleum products and most chemicals

Mfr. Model #	Description	BSE Part #
N85	2150' Nylon Fishing Line — Center Pull - 85#	229690

U-Cable Clip for RG-6 Coaxial Cable

Secures coaxial cable to wall of home or building.

Mfr. Model #	Material	Weight Ea	Package Qty	BSE Part #
PSC2170151	Aluminum	.003 lbs.	500	3547036

U-Cable Clips

Used to secure drop cables to wood and/or masonry surfaces.

- » Constructed of soft aluminum for pliability

Dome-Top® Barb Ty Cable Ties

- » Weather Resistant Nylon 6.6
- » Greater resistance to damage caused by ultraviolet light — indoor or outdoor use
- » Dome-top head features unique patented design with round, smooth edges
- » Stainless steel locking barb provides consistent performance, reliability, and infinite adjustability through entire bundle range
- » High strength and low thread force
- » Curved tip is easy to pick up from flat surfaces and allows faster initial threading to speed installation

SupplyTrax™ material management solutions from Border States provide a full suite of services and solutions to make it easier for you and keep your business ahead of the competition.

Fiber Optic SOLUTIONS

FLEX CLIPS™

Flex Clips™ superior design will not pinch, compress, cut into, or damage the cable. The integrity of the signal is unimpeded and the quality of the drop is assured.

- » Housings made from proprietary UV-Stabilized Polyethylene
- » Pre-inserted yellow zinc coated combination slotted, Phillips, hex-head screws are long lasting
- » Wrap around the fiber/cable without exerting pressure
- » Adjustable teeth allow the clips to expand

LUBRICANTS

FTTx Communications Lubricant

Thin spray lubricant to lower tension in fiber drops and data cables.

- » Superior Performance: Reduces friction with ultra thin coating levels
- » Zero Mess: Dries quickly and leaves no mess on the receiving side of the cable pull, unlike traditional wax or gel lubricants
- » Low-Friction Residue: Even lubricates when dry
- » Spray or Wipe Application: Efficient and easy to use
- » Compatible with Cable Jackets: Suitable for a variety of cable jacket types

Polywater

F Fiber Optic Cable Pulling Lubricant

For pulling fiber optic and other communications cable.

- » Superior Friction Reduction: For lower tension and or longer cable pulls
- » Wets Out and Coats PE Jackets: Lubricates at all points of cable rub on long pull
- » Pourable: Can be poured into innerducts and feeder tubes
- » Compatible with Cable Jackets: Avoid weakened or cracked cable jackets
- » Slow Drying: Leaves a lubricious residue for lasting lubrication

Prelube 2000™ Cable Blowing Lubricant

Increases installation distance when blowing fiber optic cable.

- » Low Friction: Increases blowing distance
- » Easy to Use: Simply squeeze into duct before blowing fiber optic cable
- » Tested and Approved: Recommended by most blowing equipment manufacturers
- » Winter Grade Available: For use in sub freezing temperatures
- » Compatible with Cable Jackets: Avoid weakened or cracked fiber optic jackets

Fiber Optic SOLUTIONS

Surge Protectors

Feature built-in automatic shutdown, lifetime warranties, and connected equipment guarantees. Choose the series that best fits your needs: Home Theater, Professional, Essential, and Rackbar™

- » Protect home and office computers, electronics, and home theater equipment
- » Surge Protection: Diverts excess voltage away from sensitive electronic equipment during an AC power surge or power spike to prevent damage.
- » Automatic Shutdown: Protects connected electronics with the integrated circuit breaker which automatically switches off in the event of an overload that exceeds the model's ability to suppress the signal.
- » EMI/RFI Noise Filter: Maintains clean power for connected equipment by filtering out electromagnetic and radio frequency interference to improve picture and sound quality.

CyberShield™ FTTx Systems and Uninterruptible Power Supplies

Keep communications equipment, such as Internet and cable-reliant services, up and running during outages.

- » Provides reliable FTTx Telecom solutions including fiber to the premise (FTTP) and fiber to the home (FTTH)
- » CyberShield™ Battery Backup power communications equipment
- » Telecom Cable Assemblies and Bulk Cables provide connectivity between power supplies and optical network terminals
- » Protect sensitive electronics and equipment during power surges and blackouts with an Uninterruptible Power Supply (UPS) system from our extensive line including standby, line-interactive, and double-conversion models, with backup capacities ranging from 350 VA to 10,000 VA
- » Key features include sine wave output, energy-saving GreenPower UPS™ design, data-line protection, and power management software

Blackburn® Duct Seal

Seal openings from air, dust or water around EMT or rigid conduit raceway.

- » Can be painted immediately after application
- » No unpleasant odor
- » Contains no asbestos
- » Workable temperature range: -20° F to 212° F
- » Service temperature range: -40° F to 250° F
- » Not to be used for electrical insulation applications

Mfr. Model #	Description	BSE Part #
DX-1	Blackburn Duct Seal, 1 lb. Slug	577994

Fiber Optic SOLUTIONS

CRC RTV Clear Silicone Sealant

For general purpose sealing, bonding and water-proofing. Clear formulation forms a barely visible water-tight seal.

- » Economical for large jobs
- » Convenient screw-on nozzle
- » Plastic safe
- » Meets requirements of Mil-A 46106 Type 1
- » Meets NSF/ANSI Standard 51- Food Equipment Materials

Mfr. Model #	Fully Dry Time	Dry Time-Tack Free	Elongation Rate	Flash Point	Working Temperature	Shelf Life	BSE Part #
14073	24 hours	10 minutes	500%	>212°F	-70 to 400°F	5 Years	900698

RTV Silicon Sealant

- » Single component, 100% silicone sealant that is ideal for interior and exterior sealing and caulking
- » Adheres to metal, glass, marble, ceramic tile, porcelain, painted surfaces, and many more
- » Can be used as an adhesive for bonding surfaces together and will not yellow or discolor in exterior applications

Mfr. Model #	Description	BSE Part #
RTV8	8 oz. RTV Silicon Sealant Clear — Pressurized Can	1349230

Handi-Foam Expanding Sealant

- » Moisture-cure polyurethane foam
- » Used to seal, bond, retrofit, insulate, and deaden sound in electrical, plumbing, air-conditioning and refrigeration applications
- » Specifically designed to be dispensed as a bead for filling cracks

Mfr. Model #	Description	BSE Part #
HF340	12 oz. Handi-Foam Expanding Sealant	115005

Duct Seal

- » Seals around junction boxes, flashings and service entrances
- » Permanently soft, non-toxic compound can be painted immediately after application
- » Won't adversely affect other plastic materials or corrode metals

Mfr. Model #	Description	Quantity	BSE Part #
31-601	1 lb. Block	Carton of 10	128048

Heavy Duty Gray CPVC Cement

- » Heavy-bodied gray cement for use on all schedules and classes of CPVC pipe and fittings up to 12" diameter with interference fit
- » Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements
- » For commercial hot and cold water systems up to 200°F / 93°C
- » Recommended application temperature 40°F to 110°F / 4°C to 43°C
- » Approved for Corzan® CPVC Piping Systems
- » Meets ASTM F493

Mfr. Model #	Size	Quantity	Weight	BSE Part #
31036	16 oz.	24	25 lbs.	1834366

AFT™ Spray Foam Sealant

For sealing conduits and risers from moisture, gases, and rodents.

- » Quick Installation: 2-minute application time or less
- » Multiple-Use Can: Creates numerous seals in all types of ducts
- » Reliable: Holds 10 feet of continuous water head pressure
- » Durable: Withstands cold temperature applications
- » Removable: Product can easily be removed to replace cable
- » Creates airtight and watertight seal
- » 6 applications per can (4 inch conduit)
- » Flexible nozzle available for easy installation

Mfr. Model #	Description	Units/Case	BSE Part #
AFT-16P4	Polywater® AFT™ Aerosol Foam Sealant (4/CS)	4	3436779
AFT-FAE10	Polywater® AFT™ Flexible Nozzles	1	3503797

Bonduit® Conduit Adhesive

Strong, watertight and airtight adhesive for HDPE conduit.

- » Versatile: Bonds HDPE to PVC , rigid steel, and fiberglass conduits and fittings
- » Superior: Stronger pullout strength than mechanical couplings
- » Durable: Bonds with high strength within an hour
- » Easy to Use: Requires no special training
- » Convenient Kits: Contains all application components required for a quick installation

FST™ Foam Duct Sealant

For sealing conduits and risers from moisture, gases, and rodents.

- » Meets NEC Code Requirements: 2011, 2014, 2017 NEC Articles 225.7, 230.8, 300.5 (G), 300.7 (A) on Raceway Seals, and 501.15 (B)(2)
- » Reliable: Holds 22 feet of water head pressure and up to 90-foot surges
- » Seals Multiple Conduits: Can seal conduits of all sizes and is reenterable
- » Compatible: Use with a wide range of cable jacket and conduit materials
- » Solves Critical Application: Class 1 Div 2 locations and areas subject to temperature variations

PedFloor™ Pedestal Sealant Foam Barrier

Creates a hard foam barrier to prevent pest infestation.

- » Deterrent: Keeps rodents, snakes, and insects from entering the pedestal or cabinet
- » Strong: Structural foam matrix creates a strong seal
- » Complete Seal: Flows and self-levels before expansion to prevent ground entry
- » Versatile: Can be used as a suspended floor or directly on the ground
- » Protects: Cured product offers permanent protection through weather extremes

ZipSeal™ Duct Sealant

A closed-cell foam duct sealing system for conduits up to 2".

- » Protects: Keeps water, gases, and rodents out of conduits
- » Quick Installation: Installs in just 45 seconds
- » Reenterable: Installed ZipSeal is quickly removed and resealed if necessary
- » Multiple Seals: One kit seals up to 5 2 inch conduits
- » Meets NEC Code Requirements: 2014 NEC Articles 225.27, 230.8, 300.5 (G), 300.7 (A) on Raceway Seals, 501.15 (b)(2)

Drain N' Seal® Pedestal Sealing Foam

Specifically designed for fiber pedestals to inhibit ground moisture penetration, Drain N' Seal® products minimize damage caused by condensation and water.

- » Ideal for fiber pedestals and vaults
- » Economical and easy to use
- » Controls ground moisture penetration
- » Re-enterable
- » Provides a clean environment for open architecture fiber closure
- » Convenient packaging reduces storage, transportation and waste costs
- » RUS Listed
- » Keeps rodents and pests out

DATACOMM

Coax Compression Tools for F and BNC Compression Connectors

USA made compression tools designed for professional use and reliability.

30-793 Compresses ALL IDEAL® compression connectors

- » Compresses BNC, F-Type, RG11-F, RCA, 90°/Right Angle connectors on to coax
- » Universal design with spin knob and adjustable post height works with most non-IDEAL compression connectors
- » Permanent connection so your connector never comes loose
- » 30-793 has aluminum die cast body - for Pro's who work regularly with coax compression

33-632 LinearX®3 Compression tool Compresses F/BNC/RCA connectors

- » Adjustable post for different length/style connectors
- » Durable & rugged zinc die-cast body with protective powder coated paint finish
- » 33-632 is for users who primarily work with F connectors or do occasional coax work

Modular Plug Crimping Tools for Feed-Thru and Standard RJ-45 connectors

30-495 FT-45™ Crimps all IDEAL® RJ-45 modular plugs

- » FT-45™ Crimp Tool crimps feed-thru, standard and shielded connectors
- » Compact design for RJ-45's from CAT5e to CAT6A
- » Long lasting blade, >2000 cuts for Feed-Thru connectors
- » Provides a flush cut of conductors for Feed-Thru

30-496 Telemaster Crimp tool crimps Standard RJ-45 (8P8C) and RJ-11/12 (6P6C/6P4C) Plugs

- » Not for use with Feed-Thru connectors
- » Cable cutter and jack stripper built in
- » For more traditional data and phone terminations up to CAT6

Punchmaster™ II Impact Punchdown Tool for 110 and 66

USA made tool provides durability for repeated use and terminations.

- » Includes both full 110 and 66 blades with cut./ no-cut tips
- » Adjustable high/low actuation setting accommodates termination requirements
- » Turn-Lock™ Style blade holding design
- » Impact-absorbing cushioned grip reduces operator stress for high volume installers
- » 5 blade types are available as replacements
- » For data and phone punchdowns up to CAT6A conductor diameters
- » Orange side denotes cut side of tool

Mfr. Model #	Description	Blade storage	Color	# Blades Included	# impact Settings	BSE Part #
35-485	Punchmaster™ II Impact Punchdown Tool	Yes	Orange/Blue	2	2	127895

Data T®-Cutter cable cutter and PrepPRO® Coax/UTP Cable Stripper

Provides compact coax cutting and simple 1/4" x 1/4" coax preparation.

45-074 cutter is USA made with steel blades for cutting RG-6/59 to RG-11 coax

- » Compact size is smaller and lighter than traditional 9" cable cutters
- » Locking latch keeps tool closed in pouch
- » Curved blades cut round copper cables and helps maintain cable geometry

45-605 PrepPRO is USA made for preparing coax cables for compression connectors

- » Pre-set 1/4" x 1/4" spacing requires no user adjustments — grey cartridge
- » Auto adjusting blade depth for 6/6Quad/59 coax cable
- » Also strips RG-59/6 Plenum cables
- » Perfect for all IDEAL RG-6 or RG-59 compression connectors
- » Blue cartridge is for CAT5e/6 jacket stripping

45-605	PrepPRO® Coax/UTP Cable Stripper	Coax/UTP/ STP	2	Plastic	2919056

Test-Tone-Trace Kit and Pro Tone and Probe

Essential basic datacomm testers for termination verification and locating cables.

33-864 Pro Tone and Probe Kit includes case and accessories

- » Identifies and traces wire or cables within a group
- » Detects and audibly amplifies analog tone generation
- » Emits three tone patterns
- » F-Connector & RJ-11/12 interface for toning twisted pair and copper cables

33-866 Test-Tone-Trace Kit adds Wiremapping feature set

- » Kit includes the VDV (33-856), Amplifier Probe (62-164), carrying case and accessories
- » Tests and traces coax, twisted pair and telephone cables in one simple kit
- » Identifies Open/Short/ Miswire/Split Pair/Pass/ Fail on LCD screen
- » Great starter kit to cover basic testing in low-voltage

Mfr. Model #	Description	Wiremap Function	Display	BSE Part #
33-864	Pro Tone and Probe Kit	No	None	1182421
33-866	Test-Tone-Trace VDV Test Kit	Yes	LCD	2796881

VDV Multimedia WireMapper and Cable Tester

Basic, easy to use tester to verify correct conductor termination in RJ-45/RJ-11 and Coax cables.

- » Data — tests 8 position 8 contact CAT 3/5e/6/6a shielded and unshielded cable testing for wiremap/continuity to TIA 568A/B standards
- » Video — tests coax cable for opens and shorts via F-connector interface
- » Voice — tests 2 or 3 pair, 6-position RJ-11/12 phone cables for wiremap/ continuity
- » Wiremap tests for opens, shorts, miswires, reversals and split pairs
- » Internal tone generator: Tone by pin/pair/entire cable with four different tones making fault isolation easier
- » Main remote stores in base of tester
- » LCD display with PASS or ERROR indicator displayed after each test

Mfr. Model #	Description	BSE Part #
33-856	VDV Multimedia Voice/Data/Video Wiremap Tester	1533264

Hand TOOLS

25AC Staple Gun

- » Model 25AC IS designed to drive the specially configured staples to a pre-determined depth in most substrates, thus making it virtually impossible for the Broadband wires to be crushed.

Mfr. Model #	Description	BSE Part #
25AC	For Use With 18/3 AWG Bell Wire, CAT 5e, 6 Cable and Small Diameter RG6 Coax Cable	1704432
Staples		
652166	Unpainted Galvanized Steel, 1/4" Crown, 19/32" Leg Length	1704433

Magnetic Hex Tool

- » Designed to drive hex head fasteners and provide additional reach and easy bit changing when needed
- » Ideal for high torque applications they feature an industrial-strength magnet for maximum fastener retention.

Mfr. Model #	Description	BSE Part #
MT104	5/16 x 4" Magnetic Hex Tool	209019

D-Snip Cable Scissors

- » High quality forged steel construction for strength and durability
- » File and scraper on both blades for cleaning wire
- » Notched blade for stripping 19 and 23 gauge wire
- » Cuts up to 16 gauge solid and 12 gauge stranded wire
- » Serrated blade for non slip wire cutting

Mfr. Model #	Description	BSE Part #
44300000	D-Snip Cable Scissors	984614

Can Wrench with Hex Head Sockets

- » Two hex head sockets (7/16 inch and 3/8 inch)
- » Color-coded socket ends for quick size identification
- » Wrench body constructed of tough, impact resistant, and abrasion resistant material
- » Socket ends guaranteed not to split or break up to a maximum torque of 45 ft. lbs.
- » Nylon body ergonomically designed to mold to user

Mfr. Model #	Description	BSE Part #
44007000	Can Wrench with Hex Head Sockets	140561

Insulated Pocket Probe Pic Tool

- » Trace and pull wires with pic end
- » Kynar insulated tip protects against shorting adjacent components
- » Compact size

Mfr. Model #	Description	BSE Part #
44600000	Insulated Pocket Probe Pic Tool	140572

Electrician's Scissors for Copper and Data Applications

Designed for use in telephone and electrical service applications.

- » Cut up to 16 AWG solid and 12 AWG stranded wire
- » Serrated surface on back blade edge cleans wire and straightens twisted pair conductors
- » Stripping notches strip 19 and 23 AWG wire
- » Chrome over nickel plating
- » Made in Italy

Mfr. Model #	Description	Length	BSE Part #
35-088	Electrician's Scissors w/ Strip Notch, 5"	5.5"	642847

Fiber Optic SOLUTIONS

High-Leverage Cable Cutter

- » High-leverage design cable cutters for exceptional cutting capability of 4/0 aluminum, 2/0 soft copper, 100-pair 24 AWG communications cable
- » Cable Cutters feature precision, one-hand shearing action
- » Cable-gripping shear-type jaws
- » Beveled jaw tips provide proper mating and shearing action, which protects leading jaw edges
- » Through-hardened (not case-hardened) for longer-lasting cutting surfaces
- » Hot-riveted joint ensures smooth action and no handle wobble
- » Custom US-made tool steel

Mfr. Model #	Description	BSE Part #
63050	High-Leverage Cable Cutter	128669

Katapult® Wire Stripper and Cutter for Solid and Stranded Wire

- » Wire Stripper and Cutter cuts and strips 8-20 AWG solid and 10-22 AWG stranded wire with ease
- » Compound action stripping: grip and strip via single-action squeezing motion
- » Precision machined stripping holes easily remove insulation without damaging the wire
- » Removes up to 1-Inch (25 mm) in length of the insulation layer (jacket layer) in a single step
- » Tension loaded wire-grip gently holds the cable while retaining cable geometry
- » Cast alloy chassis with heavy-duty Ecoat finish for corrosion resistance and durability

Mfr. Model #	Description	BSE Part #
11063W	Katapult® Wire Stripper and Cutter for Solid and Stranded Wire	2990611

Carbon Steel Hawkbill Pocket Knife

- » Extra-large 2-5/8-Inch (67 mm) long curved hawkbill slitting-blade
- » Ideal for heavy-duty line work
- » Woodgrain plastic handle
- » Blade locks open

Mfr. Model #	Description	BSE Part #
1550-4	Pocket Knife, Carbon Steel Hawkbill Slitting Blade	127624

6-1/2-Inch Cable Splicer's Knife

- » Special-purpose short blade with comfortable, full-sized, heavy-duty handle
- » Coping-type blade made of the finest cutlery steel, tough and carefully tempered to hold its edge
- » Handle is textured for comfort and firm grip
- » Hang hole for easy storage and portability

Mfr. Model #	Description	BSE Part #
44200	Cable Splicer's Knife, 6-1/2-Inch	127596

Cable Skinning Utility Knife w/Replaceable Blade

- » This folding utility knife features a heavy-duty hawkbill blade that is easily replaceable to eliminate the need for sharpening
- » Handle has rubberized grip and release lever for lockback mechanism
- » Replaceable blade is held securely by a captive screw
- » Thumb stud for easy opening and the pocket clip is easily accessible
- » Replacement blades sold separately: a 440A stainless steel blade (Cat. No. 44219) and a versatile, straight coping blade (Cat. No. 44138)

Mfr. Model #	Description	BSE Part #	Repl Blade Mfr. Model #	Repl Blade BSE Part #
44218	Cable Skinning Utility Knife w/Replaceable Blade	3341017	44219	3341018

Wood Folding Rule

- » Strong, 6-foot (1.83 m) long hardwood rules with clear abrasion-resistant coating
- » Black markings on yellow, with red stud center markings every 16 inches
- » Measurements are marked on both sides and both edges, graduated to 1/16-Inch
- » Riveted lock joints are designed for long wear and maintained accuracy
- » Engraved graduations on both sides

Mfr. Model #	Description	BSE Part #
901-6	Wood Folding Rule	129773

16-Foot Magnetic Double-Hook Tape Measure

- » Tape Measure with 13-foot standout of wide, tough and durable blade
- » Uncluttered, easy-to-read bold lines marked on blade every 1/8 inch
- » Heavy-duty, tough, durable nylon-coating protects blade printing and delivers longer blade life
- » Retraction speed brake controls blade speed and protects fingers from touching blade
- » Measurement scale printed on front and back sides of blade for versatility to address different types of measurements
- » Double hook can secure tape to items such as studs, conduit, pipes, etc. on front or back side of blade to measure with either measurement scale
- » Strong magnet on hook attaches to ferromagnetic objects such as steel studs, doors, panels, conduit, etc. for easy measuring

Mr. Model #	Description	BSE Part #
9216	Tape Measure, 16-Foot Magnetic Double-Hook	2743642

3/8" and 7/16" Hex Nut Can Wrench

- » Two tools in one saves space in your pouch
- » One end opens telephone box fasteners, the other end tightens nuts on binding-post terminals
- » The 7/16-Inch socket has a black finish and the 3/8-Inch socket has a silver finish
- » Sockets are 1-1/4-Inch (32 mm) deep to fit over long binding posts and are thin-walled for easy access into tight areas
- » Socket ends are color-coded for quick identification of socket sizes
- » Hex-socket design enables using a wrench to obtain extra torque
- » High-impact, break-resistant handle for long and dependable service

Mr. Model #	Description	BSE Part #
68005	Can Wrench, 3/8" and 7/16" Hex Nut	655486

1/2 x 9/16-Inch Ratcheting Box Wrench

- » Reverse ratcheting action by simply turning wrench over
- » Laminated construction for greater strength
- » Different size at each end
- » Chrome-plated finish for rust resistance

Mr. Model #	Description	BSE Part #
68202	Ratcheting Box Wrench 1/2 x 9/16-Inch	128984

8-Inch Heavy-Duty High Leverage Diagonal Cutting Pliers

- » Diagonal Cutters cut ACSR, screws, nails and most hardened wire
- » Pliers have high-leverage design, with rivet closer to the cutting edge for 36-Percent greater cutting power than other plier designs
- » Short jaws and beveled cutting edges permit close cutting of wire
- » Induction hardened cutting knives for long life
- » Hot-riveted joint ensures smooth action and no handle wobble
- » Plastic-dipped handles for comfort and ease of identification
- » Custom, US-made tool steel

Mr. Model #	Description	BSE Part #
D2000-28	Diagonal Cutting Pliers, Heavy-Duty, High-Leverage, 8-Inch	129223

6-Inch Long Nose Side Cutters

- » Induction hardened cutting knives for long life
- » Knurled jaws for sure wrapping and looping
- » Slim head design for working in confined areas
- » Hot-riveted joint ensures smooth action and no handle wobble
- » Curved handles provide greater tool control
- » Plastic-dipped handles for comfort and ease of identification
- » Custom, US-made tool steel

Mr. Model #	Description	BSE Part #
D203-6	Long Nose Side-Cutters, 6-Inch	129121

Fiber Optic SOLUTIONS

Journeyman™ Pliers

- » Cuts ACSR, screws, nails and most hardened wire
- » Three styles — Diagonal Cutters, Side Cutters or Lineman's
- » High-leverage design — Rivet is closer to the cutting edge for 46-percent greater cutting and gripping power than other plier designs
- » Induction hardened cutting knives for long life
- » Hot-riveted joint ensures smooth action and no handle wobble
- » Streamlined design with sure-gripping, cross-hatched knurled jaws
- » Unique handle tempering helps absorb the "snap" when cutting wire
- » Dual-material Journeyman™ handles provide a better grip without sacrificing tool strength and durability
- » Hard, black material for toughness and durability
- » Soft material on outer surface for comfort and a firm grip
- » Color-coded handles allow quick identification of the tool
- » Features combination polished and black-oxide finish
- » Custom, US-made tool steel

7-Piece Nut Driver Set

- » Tool Set has general-purpose selection of the most frequently used nut drivers
- » Nut Drivers full hollow 3-Inch shafts facilitate work on long bolt applications
- » Cushion Grip handles allow for greater torque and comfort
- » Tip-Ident® quickly identifies nut driver hex orientation and size by colorcoding the handle ends so you can easily engage the nut driver with the fastener
- » Internal flanges provide solid, twist-resistant shaft anchor

Mfr. Model #	Description	BSE Part #
631	Nut Driver Set, 3-Inch Shafts, Cushion Grip, 7-Piece	128718

3/16-Inch Cabinet Tip Screwdriver

- » Precision-machined tip provides accurate fit and torque without slippage
- » Tip-Ident® quickly identifies the screwdriver type and tip orientation
- » Cushion-Grip handle for greater torque and comfort
- » Premium chrome-plated for smooth feel and corrosion resistance
- » Internal flanges inside handle provide solid, twist-resistant blade anchor
- » Special heat-treated shafts
- » Meets or exceeds applicable ASME / ANSI specifications

Mfr. Model #	Description	BSE Part #
601-3	3/16-Inch Cabinet Tip Screwdriver 3-Inch Shank	129436

Phillips Screwdrivers

- » Precision machined Phillips tip provides a more consistent geometric symmetry than conventional Phillips screwdrivers to accurately fit and torque without slippage
- » Tip-Ident® quickly identifies the screwdriver type and tip orientation
- » Cushion-Grip handle for greater torque and comfort
- » Premium chrome-plated for smooth feel and corrosion resistance
- » Internal flanges inside handle provide solid, twist-resistant blade anchor
- » Special heat-treated shafts
- » Meets or exceeds applicable ASME / ANSI specifications

603-3	#1 Phillips Screwdriver, 3" Round Shank	129482
603-4	#2 Phillips Screwdriver 4" Round Shank	129485

1/4-Inch Cabinet Tip Screwdriver

- » Narrow cabinet tip permits blade access where space is limited
- » Cushion-Grip handle for greater torque and comfort
- » Premium chrome-plated for smooth feel and corrosion resistance
- » Internal flanges inside handle provide solid, twist-resistant blade anchor
- » Special heat-treated shafts
- » Precision-machined tip for exact fit
- » Meets or exceeds applicable ASME / ANSI specifications

Mfr. Model #	Description	BSE Part #
605-4	1/4-Inch Cabinet Tip Screwdriver 4-Inch Shank	129501

4-Piece Mini Slotted and Phillips Screwdriver Set

- » Screwdriver Set includes one Phillips-tip, one keystone-tip and two cabinet-tip screwdrivers
- » Mini Cushion-Grip handles for superior comfort and grip
- » Tip-Ident® quickly identifies the type of screwdriver and tip orientation
- » Precision tips for an exact fit and rigorous applications
- » Premium chrome-plated shafts for corrosion resistance
- » Meets or exceeds applicable ASME / ANSI specifications

Mfr. Model #	Description	BSE Part #
85484	Screwdriver Set, Mini Slotted and Phillips, 4-Piece	2023077

Utility Knives

Durable construction and comfortable grip for extended use.

- » Extremely durable stainless steel nose — One piece titanium coated nose resists wear and eliminates spreading
- » Longest lasting utility blades — Three shatterproof titanium edge blades included
- » Easy blade change — Quick blade release allows rotation or changing of blade without opening handle
- » Internal blade storage — Retractable knife stores up to five blades
- » Fixed knife stores up to ten blades
- » No tool needed to open

Mfr. Model #	Description	BSE Part #
20353-SSRK1	LENOX Gold® Quick Change Retractable Knife	1578767

Utility Blades

Titanium edge for maximum blade life.

- » Lasts longer — High speed steel edge with titanium coating keeps blades cutting after others have quit
- » Shatterproof — Patented bi-metal construction allows blades to bend and flex without breaking
- » Makes deeper cuts — Four notch design allows blade to extend further
- » Fits all standard utility knives
- » Cuts the toughest materials — Dry wall, insulation, flooring, roofing and more

Mfr. Model #	Description	BSE Part #

- » 4" angled design
- » Cinch Loop for easy adjustment and tight fit
- » Metal insert designed to keep the climber shank stationary to reduce chafing to the leg
- » 3/4" cushion padding for comfort
- » Maximum adjustability
- » Rolled edge to prevent chafing
- » Compatible with Buckingham titanium & steel climbers

BUCK
TOOL

Mfr. Model #	Material	Closure Type	Width	Height	Weight	BSE Part #
3502C	Leather/Felt	Hook & Loop	4"	7.5"	1.5 lbs.	1968681

Climber Footplate

Two footplates, one with a rubber sole that faces down, fasten together on the climber stirrup with two screws. Not for use with aluminum climbers.

- » Great for those new to climbing or at a training school putting in long hours on their hooks
- » Very popular amongst arborists on the West Coast
- » Perfect addition for those bigger in stature as the climber footplate distributes weight more evenly across your foot instead of only on the balls of your feet

Mfr. Model #	Material	Length	Width	Weight	BSE Part #
35033	Steel	9"	3.5"	2.5 lbs.	3246659

Long Cover Hook

- » Meets or exceeds ANSI / SCTE 77 Tier Ratings
- » High strength and durability
- » Cost effective
- » Nonconductive and nonflammable
- » Stable under freeze / thaw conditions
- » Impact resistant
- » All hardware is hot dip galvanized or stainless steel
- » Custom logos and colors available
- » Polymer materials do not rust or corrode

HUBBELL

Mfr. Model #	Description	Size	Material	BSE Part #
C082908	Long Cover Hook	27"	Electroplated	228796

Bucket Hook

- » Durable impact resistant construction
- » Hangs aprons, oval bags, and other storage solutions
- » Durable polymer
- » Compatible with Milwaukee Tool 10,000PSI hydraulic pump
- » Survives all weather
- » Fits standard eyelets on tool aprons and bags
- » 100lb weight capacity
- » Secure fit

Milwaukee

LOCATORS

3M™ Dynatel™ Cable/Pipe Locator 2200 and 2200M Series

Offering a broad feature set with advanced digital processing, the 3M™ Dynatel™ Locators 2200 and 2200M Series combine simple interfaces with precision locating capabilities.

- » Four active trace frequencies which can be used individually or simultaneously to compensate for varying field conditions. The receiver incorporates passive power and auxiliary frequencies that do not require the use of the transmitter
- » Graphic display to distinguish between targeted cable and other cables in congested area
- » Four modes of operation — dual peak, dual null, differential and special peak — for accurate locates, even in the most challenging field conditions
- » Direct connect cable with small clips on both models
- » Four active frequencies
- » 3" Dyna-coupler
